

### Short Term Distance Learning Schedule

This schedule is for Distance Learning days. Teachers will send assignments home with students prior to closure and use the following schedule for class meetings, discussions, and instruction. Students should plan on attending all meeting sessions.

Most classes will meet through Microsoft Teams with students being able to use their school issued device and Teams account to find the meeting link in the calendar section. Grades K-2 will use Zoom for their meeting platform with meeting links being sent to the parents. Should you or your child need more assistance, please email teachers directly.
