We, the class of 1998, would like to recognize an outstanding person. She first came into our lives when we were in fifth grade. Since then she's been our teacher, our advisor, and our friend. She has helped us through many things- homecoming floats, concessions, prom, graduation, and so much more. She's a willing ear and a helpful hand. As our homeroom advisor she was one of the first people we would see every morning, it was always nice to see her bright, smiling face to start out the day. She will be missed not only by our class, but by the rest of the school as well, because this was her last year. We feel privileged to have been able to learn and grow as individuals under her guidance. Therefore, we dedicate the 1998 yearbook to you, Mrs. Schanzenbach.

Thanks for all of the memories!

WINTER EIGHT

Activities

Community Forward Activity

Last year teachers Teresa Schanzenbach and Cynthia Rall started a committee formed by community members from various age groups. This group became known as the Community Forward(CF) Committee. Other members include John Sumption, Edgar Head, Donna Sumption, Carol Sheldon, Jim Bain, Scott Campbell, Gary Huettl, and student representatives Josh Underberg, Jennifer Kopetsky, Emily Sheldon, and Ryan Kolb.

Through surveys given to community members, it was decided that the purpose of this committee was beautification, community education, and entrepreneurship. Under beautification, a greenhouse, inner-city park area, and flower parts were planned. Community education included the pre-school, junior and senior shadowing, computer education, a shelflist of library books, cultural awareness, and historiography. The fifth grade business fair, a greeting cards business, and the colorcamm were the planned projects under entrepreneurship.

Along with all of the projects mentioned above, the Community Forward group also made the three communities of Barnard, Frederick, and Westport into Gold Communities.

TOP: Community Forward members: Ryan Kolb, Donna Sumption, Jennifer Kopetsky, and Edgar Head attend a Northern Plains Premium Beef meeting. MIDDLE: Gary Huettl, Cynthia Rall, and Donna Sumption are three members of Community Forward who work with the Four Directions Designs business. ABOVE: Sophomore biology students started plants for their greenhouse in the science room.

Four Directions Designs.

Four Directions Designs was the name chosen for the first student entrepreneurship in our school. The Community Forward sponsored the business venture. Three adults from Community Forward, Donna Sumption, Gary Huettl, and Cynthia Rall, are the adult managers for the business. Suzi Giovannattone is the head student manager. Other students are operation managers, sales managers, and designers.

Members of the graphics art club are (top to bottom): Dwight Pehl, Emily Sheldon, Jennifer Kopetsky, Ryan Kolb, Suzi Giovannattone, Josh Underberg, Alisha Groop, and Brett Riggs.

UPPER LEFT: Donna Sumption and Liisa Nixon demonstrate how the color cam operates to two visiting instructors. ABOVE: Ryan Kolb finished pressing the design on a t-shirt. LEFT: The Four Directions Designs business holds a regular meeting.

Historiography

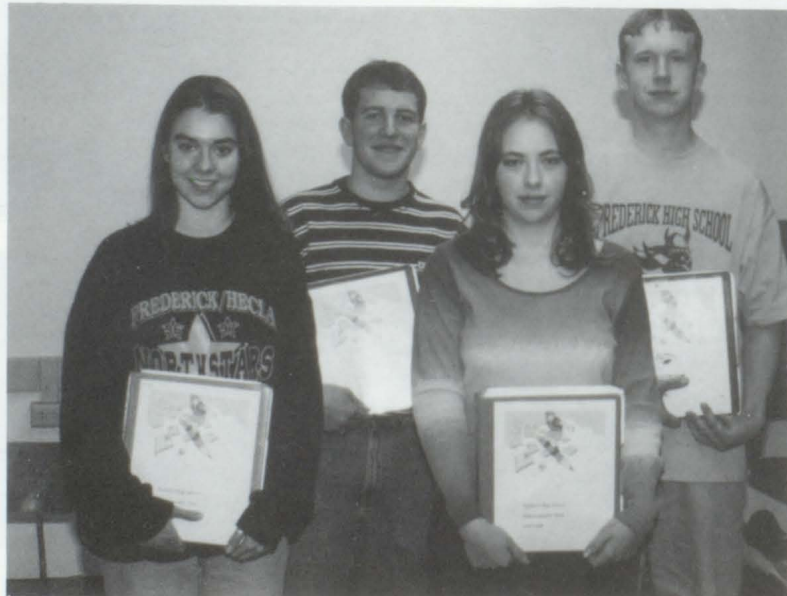

Four Senior students took on the challenge of compiling a historical book for the first time in Frederick High School history. The four students were Christopher Maunu, Daniel Podoll, Anne Sheldon, and Janel Walworth. With the help of their advisors, Mrs. Maunu and Mrs. Brokaw, the students interviewed many citizens in the surrounding areas, such as: Merlon Kotila, Arnold Martilla, Marie Kotila, Al Bussian, Raymond Sumption, Leroy Podoll, Doyne Jensen, Delilah Taskerud, Ester Graves, Martha Martel, and Helen Rexinger. The students chose a topic that interested them. The topics were changes in agriculture (Daniel Podoll), country schools (Anne Sheldon), Savo (Chris Maunu), and gypsies (Janel Walworth). They put in a lot of hard work, dedication, and perserverance. This was a once in a lifetime chance for these four individuals.

Top: Anne Sheldon and Janel Walworth are doing scans and pull-outs as they prepare for the final draft of the Historiography magazine.

Middle: Daniel Podoll interviews Al Bussian about his experiences with the changes in agriculture.

Bottom: The Historiography students: Anne Sheldon, Daniel Podoll, Janel Walworth, and Chris Maunu.

Connection Made to Finland.

The fascinating world of technology certainly came to the Elm Valley School District this year when a connection from Frederick was made to Finland. The fifth graders and their instructor, Ann Hegge, participated in the event. On Thursday, February 12, 1998 the telecommunications allowed the Barnard students, who met in Frederick before school, to visit and see the Finland students, who were meeting after school in Finland. Chris Haar from the Aberdeen Development Corporation assisted with the overseas connection. Annikki Martilla was present to help clarify any communication difficulties that occurred. Bryan Nelson from KSFY covered the event, which was on the 6:00 news that night. The fifth grade students had been E-mailing their Finnish keypals for months before they actually got to see the students on the TV screens. Mr. Getty was a great leader in arranging the meeting.

TOP: Annikki Martilla assists students with Finnish language. Mr. Barondeau and Chris Haar are in control of the connection to Finland. BOTTOM: Maxine Kinslow writes down the names of those in attendance with the event. Fifth grade students, Ann Hegge, Chris Haar and Annikki Martilla helped with the event.

'98 Senior Class Trip '98

On March 16, the senior class traveled to Pierre to visit the state capitol and other interesting sites. The day started early. The bus left Frederick at 6:30 am. When they got to Pierre, their first stop was the magnificent capitol building. They got a tour and then they were able to do some site seeing on their own. They met up with their classmate Chris who was serving as a Senate Page.

After the stop at the capitol, they took a tour of the Cultural Heritage Center. From there, they traversed for a tour at the Women's State Penitentiary. "It was a wonderful experience, until my mishap in the mud," laughed Janel Walworth.

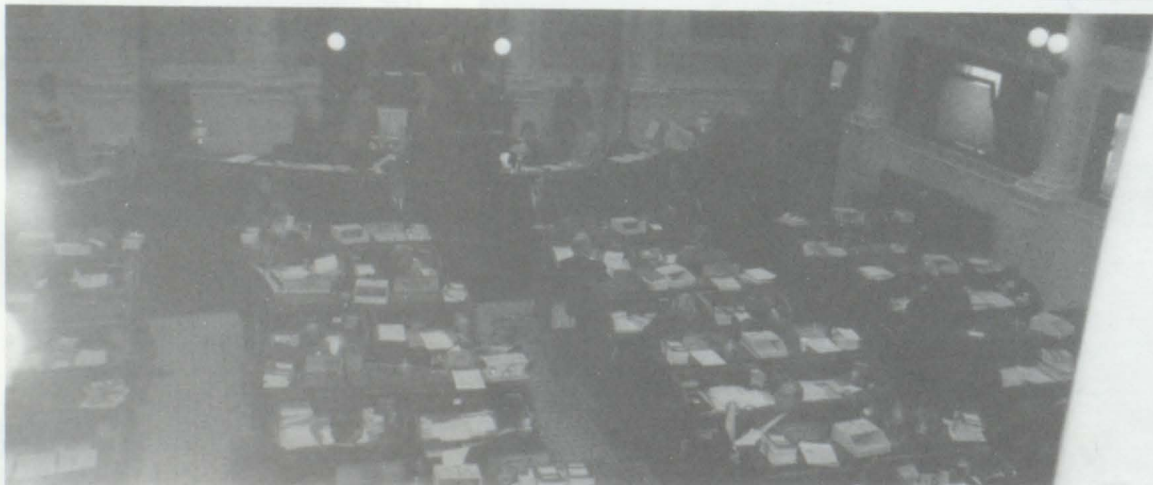

On the way home, they stopped at Bob's Steak House in Gettysburg. When asked about his adventures there, Nathan Bakeberg remarked, "I was very relieved when I took the last bite of my 18 ounce steak."

TOP: The senior class poses for a picture on the grand marble staircase at the capitol.

Back row: Mr. Quimby, Jesse Holmes, Chris Maunu, Brian Jenson, Travis Olson, Jesse Weig; Middle row: Nathan Bakeberg, Jessica Nilson, Warren Sumption, Daniel Podoll, Anne Sheldon; Front row: Joni Napton, Lynn Huettl, and Janel Walworth.

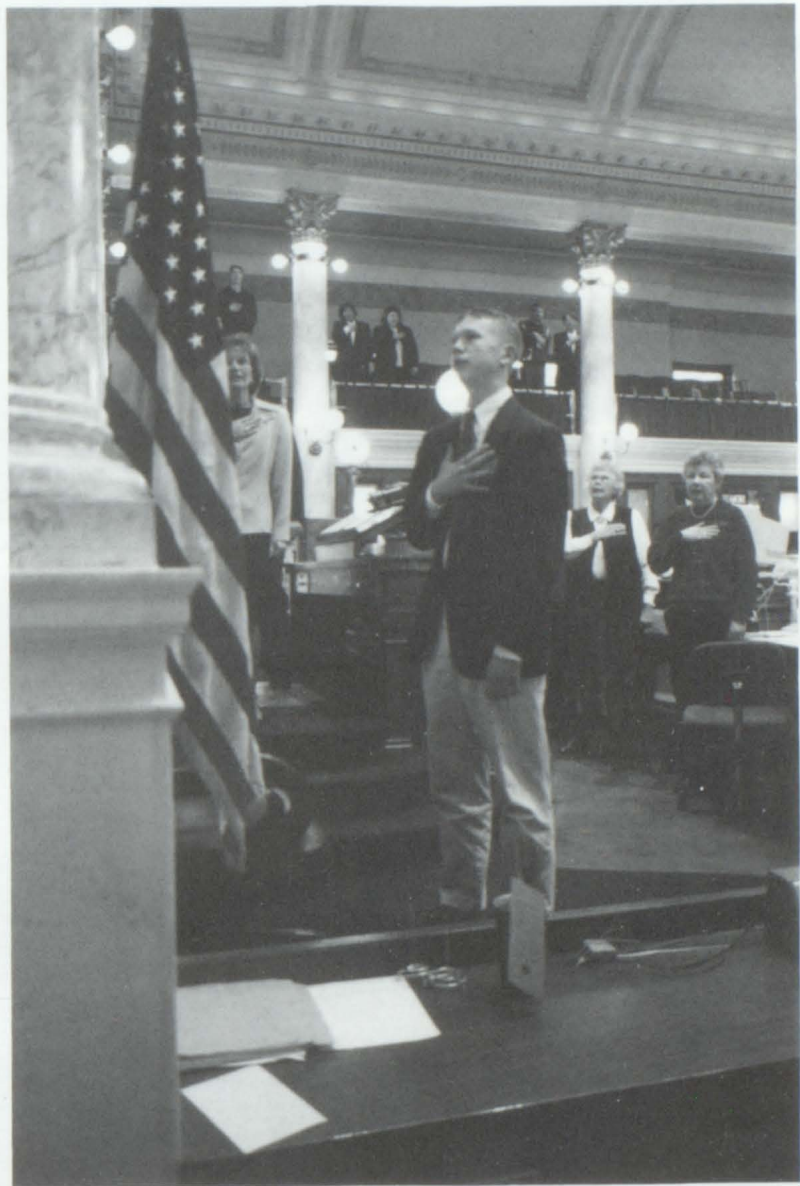

BOTTOM: A view of the Senate chamber taken from up in the Gallery.

State Legislature Page

In January of this year, one of Frederick High School's seniors obtained a unique honor. Chris Maunu was selected to serve South Dakota as a Legislative Page during the 73rd legislative session. He was in Pierre from January 25th to January 30th. There were a couple of steps in the process of being selected to serve. Chris first had to contact one of the legislators in our district (District 2). Then after Senator H. Paul Dennert agreed to be his sponsor, Chris filled out the application that the Legislative Research Council sent to him. He was then notified of his selection and the makeup of his duties.

After a three-hour orientation meeting of Sunday, January 25th, the work week began. Chris began his day at 7:30 a.m., and it ended at roughly 6:00 in the evening, depending on how long the session lasted. There were various duties in his job. They included: picking bills (organizing bills and placing them in legislator's bill books), delivering journals (booklets that showed what happened on the previous legislative day), delivering calendars (explained what was on the agenda for that day), bringing bill status reports to committee rooms, answering telephones in the Senate chamber, running errands, and floor duty. According to Chris, floor duty was the most enjoyable aspect of his work at the capitol. "I delighted in floor duty, because it gave me a better understanding of how our laws are made by actually witnessing it and helping to make it

Page Christopher Maunu, leads the South Dakota State Senate in the pledge of allegiance.

all happen," he explained. During floor duty, several pages would sit at the front of the Senate while session was going on. If a legislator would need an errand ran, he or she would motion and one of the pages would go see what they needed. When asked

about the entire experience of his honor, Chris said he viewed it as a learning experience. "You cannot completely learn about South Dakota's government from a book. It takes an experience like mine to really find out how everything works."

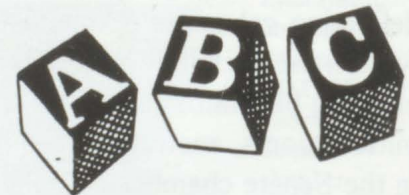

LITTLE PALS PRESCHOOL

For the first time ever, Frederick High School is currently home to a preschool class that meets Monday, Wednesday, and Friday afternoons. Little Pals Preschool was helped to get started with a grant from South Dakota's Program for Rural School and Community Renewal. Last year's art room had been transformed into a children-friendly environment. The change is really quite amazing! Murals of Winnie the Pooh and friends have been painted on the walls, among other things. They have also been concentrating heavily on the skills needed for kindergarten, which includes numbers, names, and writing skills. Every week there is a new theme followed throughout the week and, also, a new letter of the alphabet is featured regularly.

The first class of Preschoolers include BACK ROW from left to right: Assistant teacher - Stephanie Sumption, Kayla Haas, Derek Barondeau, Stefani Sumption, Tyler Sumption, Spencer Rall, Chelsea Zinter, Casson Campbell, Krista Stoddard, Luke Schaunaman, and Teacher - Stacy Sumption. FRONT ROW: Alyxis Perry, Abby Sumption, Sabrina Bressette, Brian Sumption, Mariah Gustafson, Kelly Storm, Taylor Lynde, Lexy Voeller, Shannen Maunu, and Alex Bretsch.

Welcome to Preschool

The preschoolers performed at the Christmas concert with the song "Rudolph the Red-Nosed Reindeer." They even dressed up with red noses and antlers!

Art in Preschool

The preschoolers have been very busy this year. They have been working together with the freshman art students. One day a week, the art students will teach some type of art to the children. Some of the projects they've worked on include gingerbread houses, stockings, and body traces. The preschoolers had fun making their wonderful creations and the high school students enjoyed helping them. All in all, it turned out to be a great year of firsts for preschool!

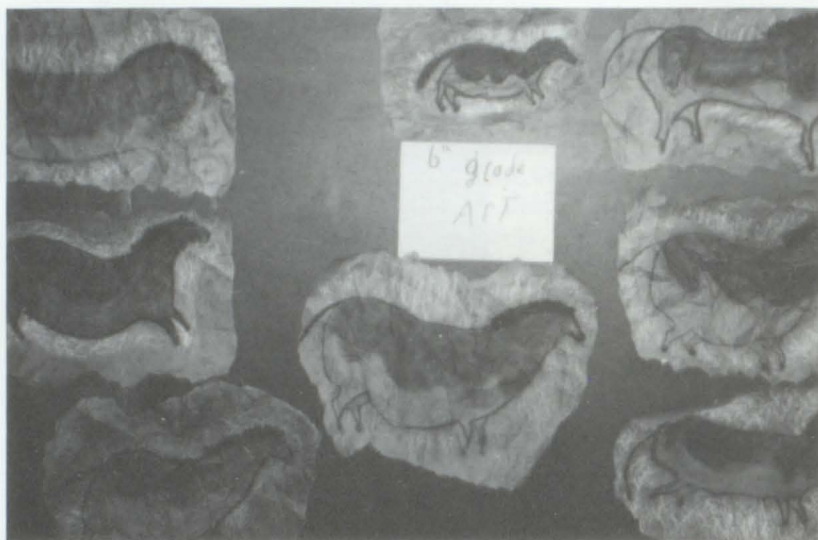

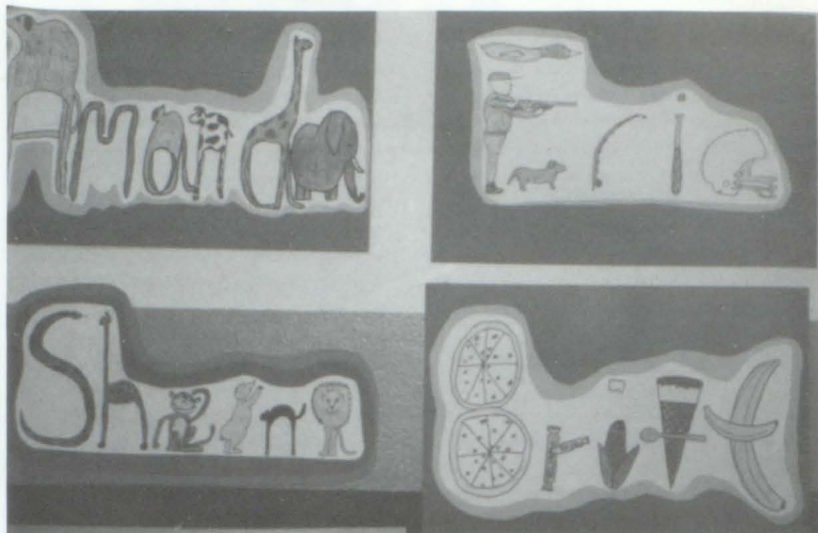

Top: Assistant teacher Stephanie Sumption helps Spencer Rall and Tyler Sumption make their gingerbread houses. Middle: Teacher Stacy Sumption smiles as Luke Schaanaman, Solutia Heintzman, Chelsea Zinter, and Casson Campbell decorate their gingerbread houses. Bottom: The preschoolers' gingerbread houses finally finished.

Art / Music Enrich All Ages

Two of the Elm Valley staff members travel to complete their week's teaching activities. Mrs. Teresa Schanzenbach teaches art at the elementary as well as at the junior high level. She tries to follow classroom themes at the elementary level. Since she is in Barnard two afternoons each week, the classes are on a rotation basis to receive art instruction. The halls often reveal the results of these art projects.

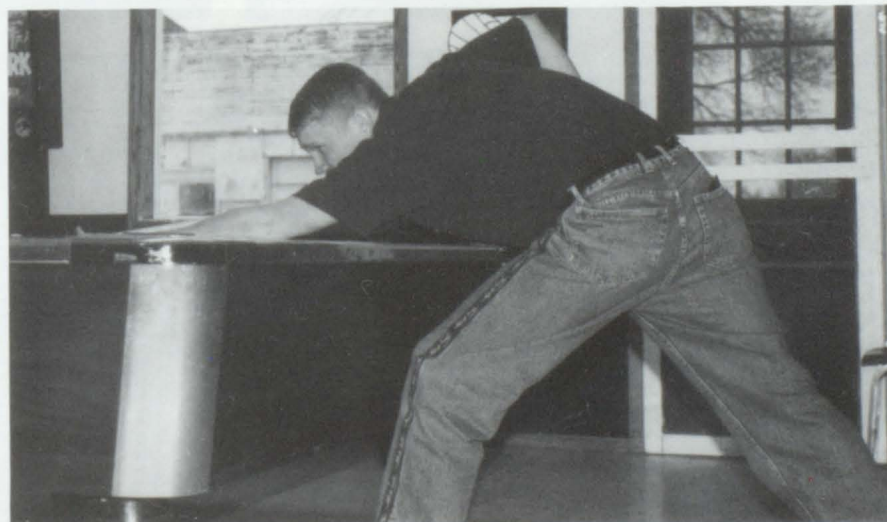

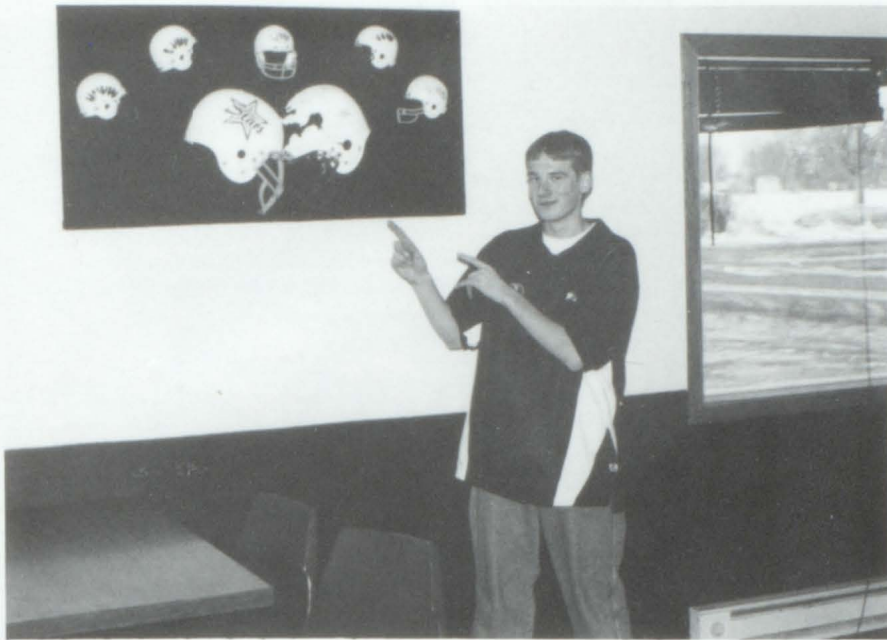

While the halls might reveal the results of art projects, across the street in the music room, Miss Liz Labesky's students are producing a variety of musical sounds. She travels to Barnard two days each week to have individual and group band lessons. There is a rotation basis for vocal music with each of the grades. Both the vocal and instrumental students present their accomplishments at a Christmas concert and a spring concert. These concerts have a history of following a variety of delightful themes. Miss Labesky also travels to Hecla to be the band instructor three afternoons per week. Her Elm Valley high school band and chorus students meet each week to prepare for concerts, prepare for contests, while pep band members prepare for ballgames.

TOP RIGHT: Seventh graders display their names drawn in a new art form.
MIDDLE RIGHT: Sixth graders display one of their classroom study art projects.
RIGHT: All elementary students took their turns performing their musical numbers at the Christmas concert with Miss Labesky as their director.

Northstar Room

In the fall of 1997, a great feature was added to the town of Frederick. The Eighth grade art class, under the guidance of Mrs. Schanzenbach, created what is known to the average citizen as the "Northstar Room." They redecorated the room at the Legion by painting the walls and making murals. Now, any fan or athlete can be easily amused in the room by playing pool, shooting darts, dancing, listening to music, playing foosball, playing video games, eating, or by just hanging out. Spending time at the Northstar Room is a great way for students to express their team spirit while having fun. It is definitely a positive place for Frederick and Hecla's youth to spend their free time. When asked what he thought was the best feature of the Northstar Room, Daniel Podoll quoted, "It's where all of the hot women hang out!" Other students had different responses. "It's a place where you can safely go have a great time. With the redecorating job completed, it makes a person feel even more welcome," explained senior Chris Maunu.

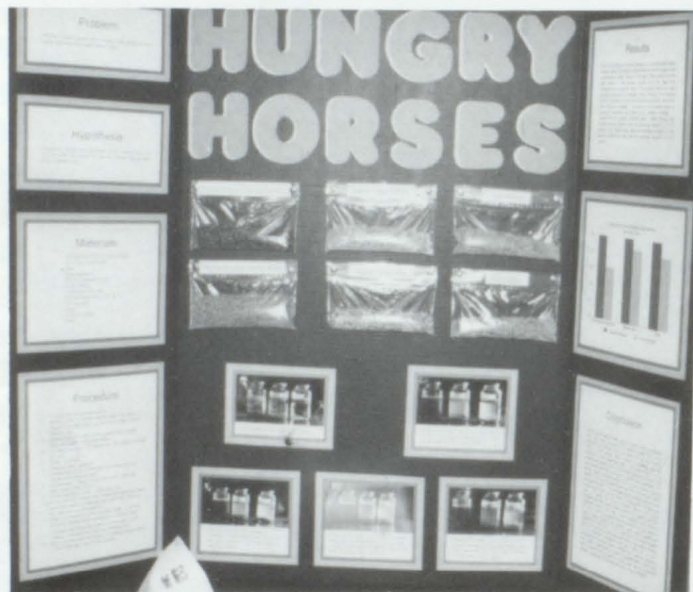

Top: Travis shows off the Northstar helmet display on the wall.

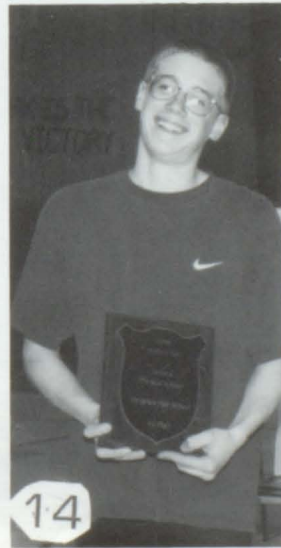

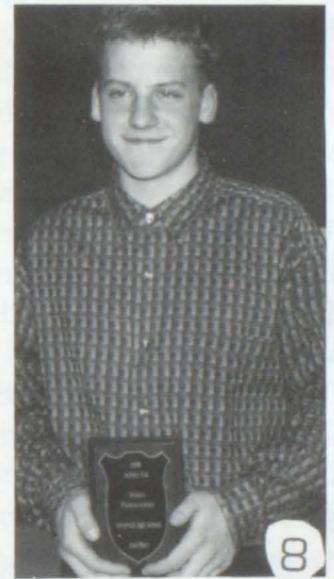

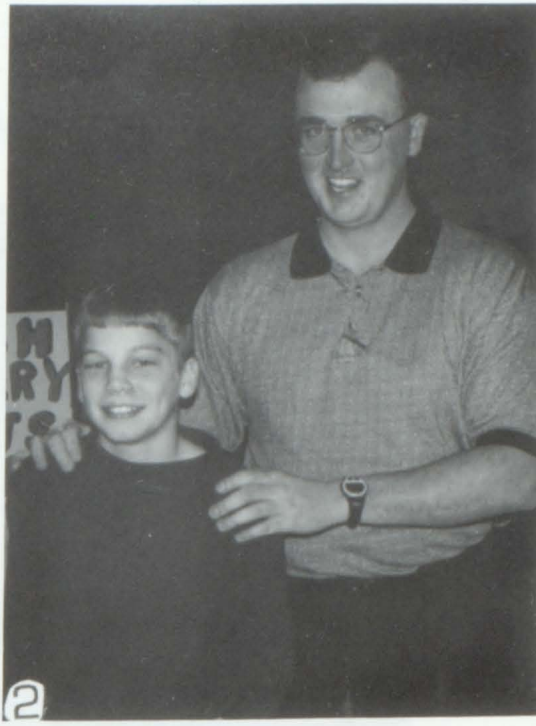

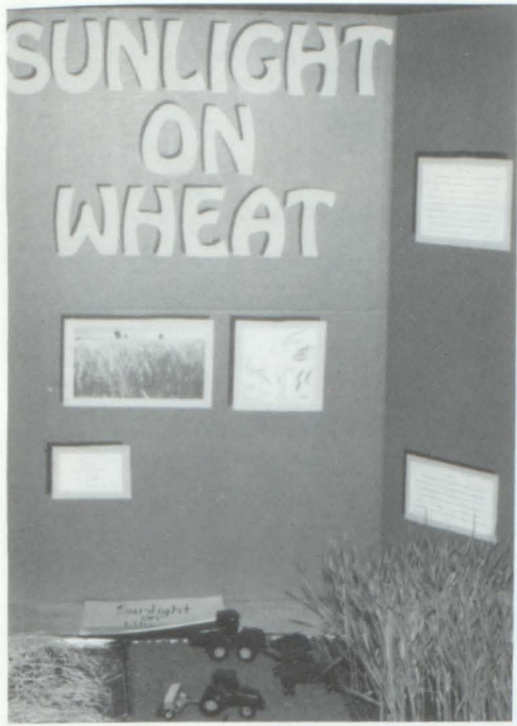

Middle: Travis and Chris get "jiggy" with the jukebox.

Bottom: Chris tries his darndest to shoot it in the hole.

Science Fair Achievers

Students from the seventh grade science, eighth grade science, ninth grade physical science, and sophomore biology classes participated in the 1998 science fair. Plaques (created by the Four Direction's Designs business) and some savings bonds were presented to the winners. The categories and place winners were as follows: Botany--1st place-Liisa Nixon(15), 2nd place-Jenny Kopetsky(6), 3rd place-Jason Bender(13), and savings bond winner was David Bretsch(2); Chemistry--1st place-Jessica Winther(4), 2nd place-Christina Kopetsky(12), 3rd place-Rachel Inches(1), and savings bond winner Jessica Winther; Physical Science--1st place-Adam Achen(14), 2nd place-Adam Rahja(8), 3rd place-Jennifer Schmidt(10), 4th place-Erin Schleder(16), and savings bond winner was Cody Clark(9); Biology--1st place-Emily Sheldon(3), 2nd place-Jenny Storm(5), 3rd place-Josh Underberg(11), and savings bond winner was Emily Sheldon; Consumer Affairs--1st place-Lindsey Voeller(7), and 2nd place Matt Nixon. These winners attended the NSU Science Fair held on March 26, 1998.

HOMECOMING

Homecoming 1997 was an event to remember. The theme this year was "Natural Disasters." This proved to be quite a challenge in picking ideas for floats, since there are so many natural disasters to choose from. But the Juniors floated to the top of the pack with their winning design, "Tidal Waves." The Seventh grade and Sophomores also had very unique ideas with their "Snow" and "Falling Stars" floats.

In order to get into the spirit of homecoming week, the student council chose different dress-up themes for each day. Monday was Gangster/Hippie Day, Tuesday was Military Day, Wednesday was Creative Hat Day, Thursday was Pajama Day, and Friday wrapped it up with School Spirit Day.

This was the first year that the Hecla Elementary participated in the annual homecoming parade. It united the two schools during this time of homecoming spirit.

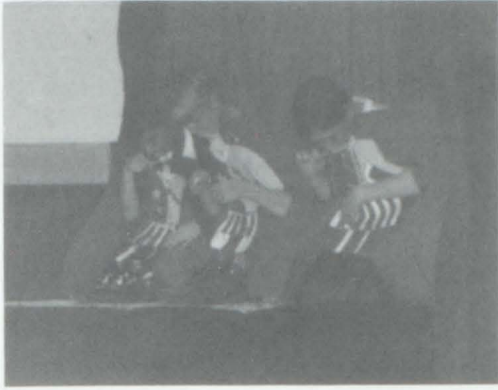

Even though the game was lost, the week was a total success. Homecoming 1997 was definitely NOT a "Natural Disaster."

Michael Mardian

Top: The Junior Float "Washes Away the Wildcats" complete with a moving wave. Middle: The Seventh grade float "Freezes the Wildcats in Their Tracks." Bottom: The Sophomore float "Burns the Wildcats." Michael Mardian was the driver. Left: Hecla's elementary was part of the parade this year. Shown are the 1st and 2nd graders.

Coronation

Top: "Cheerleaders" Justine, Sethrina, and Roberta entertain the crowd by attempting to brush their teeth.

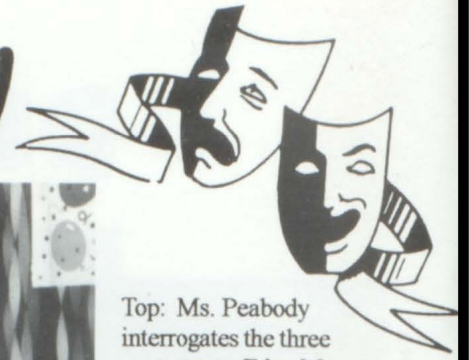

Middle: Sophomore football players, Mike Schmit, Jon Fonder, Derrick Bretsch, and Dalton Dosch wait to be kissed by their mothers.

Bottom right: 1997 Homecoming Royalty Joni Napton, Janel Walworth, Queen Anne Sheldon, King Warren Sumption, Daniel Podoll, and Nathan Bakeberg. In front are the crownbearers, Caylee Holmes and Matthew Haas.

After the parade festivities, everyone gathered in the gym for coronation. The FHS band performed a rousing selection of pep band music to entertain the crowd while they waited for the candidates to appear. The crowning of the king and queen was delayed because of 1996 homecoming king, Nate Deuter, who had car trouble and also forgot his pants! Things finally got underway and the candidates were introduced. They were Nathan Bakeberg, Joni Napton, Daniel Podoll, Anne Sheldon, Warren Sumption, and Janel Walworth. The crown bearers were Caylee Holmes and Matthew Haas. Before the crowning of the king and queen, a few skits were performed. Three "cheerleaders," Justine, Sethrina, and Roberta were assisted in brushing their teeth, eating cereal, and drinking water. It was quite humorous to watch their troubles performing the simplest of tasks. Next, the actual cheerleaders got the crowd going with the cheer "If You Wanna Win Tonight." Then it was time for the Sophomore football players to guess what cheerleader was kissing them. They were blindfolded and sprayed with perfume. Then they got a kiss and when they took off their blindfolds they discovered it was actually their moms doing the kissing. Finally the big moment had arrived. The 1996 homecoming queen, Christina Olson, crowned the 1997 homecoming queen, Anne Sheldon. Then Nate Deuter awarded the 1997 homecoming king, Warren Sumption, with a medal. Homecoming 1997 was a time to remember.

One-Act Play

"Just Desserts" was the title of this year's one act play. It was an audience participation murder mystery about a charity bake-off with a bit of comedy laced throughout to spice things up. The small cast consisted of Kim Kinslow as "Miss Peabody," a retired school teacher who organized the charity event. Daniel Podoll was "Judge Reginald P. Cogsworth," a grouchy old curmudgeon who meets his maker at the end of scene one. Emily Sheldon was "Edna Mae Carter," an old maid librarian. Janel Walworth played "Margaret Mason," a high society dame. Anne Sheldon played "Lucy 'Scooter' Bright," a ditsy blonde nail salon owner. At the end of scene one when the judge died mysteriously, Miss Peabody and the three contestants were left to solve the crime on their own. The audience participated by finding different clues to help Miss Peabody. The killer turned out to be Edna Mae Carter, who poisoned the judge because he killed her cat Moo-moo. After the play, a real bake-off was held. Winners in different categories were given aprons made by Four Directions Designs.

Top: Ms. Peabody interrogates the three contestants, Edna Mae Carter, Margaret Mason, Scooter Bright.
Middle: Ms. Peabody and Judge Cogsworth discuss the rules of the charity bake-off.

1997 Snow Queen Contest

The 1997 Frederick Snow Queen Pageant that was held on November 28, provided a night of "Cowboys and Angels." The MC, Christie Mikkonen got the crowd going with a monologue about shopping. After the introductions and welcomes, it was time for the candidates to be escorted on to the stage by Warren Sumption and Justin Kopetsky. The Junior candidates were Jennifer Storm, Leslie Nilson, Jessica Winther, Kayla Johnson, Trista Bunke, and Jennifer Schmidt. The Senior Snow Queen candidate was Janel Walworth. The first grade girls kicked off the entertainment with a song. The rest of the entertainment included ballet dancers, square dancing, and a piano solo. Next came the unveiling of Frosty. To the surprise of the audience, Frosty turned out to be Mara Hart. The 1996 Junior Snow Queen, Nicole Storm, gave her farewell speech and crowned Jessica Winther the new 1997 Junior Snow Queen. Christina Olson, the 1996 Senior Snow Queen was on hand to give her farewell speech and to crown Janel Walworth the new 1997 Senior Snow Queen. Both girls went on to the state competition in Aberdeen. They both had a lot of fun meeting new friends and participating in the weekend's activities.

From left to right: First runner up, Jennifer Storm; Leslie Nilson, Junior Snow Queen, Jessica Winther; Kayla Johnson; Senior Snow Queen, Janel Walworth; Trista Bunke; and Jennifer Schmidt.

ORAL INTERPRETATION

For the third consecutive year, coach Tonya Zinter got the FHS Oral Interp team off to a good start.

This year the team traveled to one meet at Northern State University before attending the District competition. At the local competition there was only one run-off in the Humorous division between Twyla Sumption, Kim Kinslow, and Suzi Giovannettone. The students who advanced from locals to districts included:

Anne Sheldon and Janel Walworth, duet; Kim Kinslow, humorous; Jennifer Kopetsky, oratory; and Adam Achen, interpretation of serious plays. Jennifer Kopetsky was the only member to advance to the Regional competition. She also received the honor of being named alternate for the State contest.

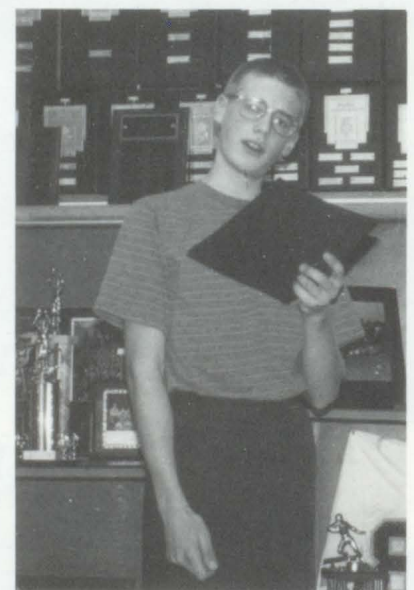

Above: Back row: Janel Walworth, Anne Sheldon, Kim Kinslow, Adam Achen; Front row: Twyla Sumption, Jennifer Kopetsky, and Suzi Giovannettone.

Bottom Left: Kim Kinslow got the crowd laughing with her humorous selection at parent's night.

Bottom Middle: Jennifer Kopetsky performs her oratory piece at parent's night.

Bottom Right: Adam Achen does his rendition of Shakespeare's "Hamlet."

Handwritten signature or scribble.

"Do you have your pages finished yet?" ask Janel Walworth and Anne Sheldon.

Yearbook

Yearbook staff members earn money for the publication of the book by selling magazine subscriptions. They try to reach a goal with their magazine sales in order to keep the price of selling the yearbooks to a fairly low amount. Once money is earned, they proceed to plan the year's book, take pictures, write their stories and develop their publication. With spring delivery dates, deadlines seem to be hard to achieve, but with team effort, these goals can be met.

The year started with a large staff since seniors, juniors, and sophomores can become staff members. Janel Walworth and Anne Sheldon were co-editors and took the responsibility of compiling the final pages. Staff members were to complete the photography and writing of the pages. With all the extra-curricular activities for students to participate in, finding time for the yearbook staff to meet and spend quality time was difficult.

TOP TWO: Students listen as Steve Charon presents the magazine program for selling. ABOVE LEFT: Janel Walworth and Anne Sheldon compile final pages. ABOVE RIGHT: Elizabeth Fonder, Liisa Nixon, and Kim Kinslow plan their pages.

Chorus

Concerts, contest, hard work, and fun. This was the scenario for this year's chorus. The year started off with work on the Christmas concert and practicing for All-State chorus.

The All-State chorus members for this year were Daniel Podoll, Chris Maunu, Betty Rohwedder, and Elizabeth Fonder. This was Daniel's fourth year as an All-State chorus member, so he received a certificate awarding him of this honor. This year's All-State chorus concert was held in Rapid City.

For the Christmas concert the chorus sang three songs, "Little Drummer Boy," "Ding Dong Merrily on High," and "Sing a Joyful Song of Christmas." When the Christmas concert was finished, the group was able to have a little fun and sing some karaoke. Soon, however, they were back on track working on music for the spring concert.

There were 40 chorus members this year, 31 girls and only 9 boys.

Top: Front row left-right: Amanda Ness, Trista Bunke, Jessica Brotzel, Nicole Underberg, Trinity Rystrom, Matt Nixon, Taylor Rystrom, Kim Kinslow, Rachel Inches, Liisa Nixon. Second row: Erin Schleder, Misty Mahlke, Becky Achen, Jessica Schmidt, Travis Schaunaman, Daniel Podoll, Kayla Johnson, Kayla Daamgard, Jessica Ness. Third row: Darlene Napton, Twyla Sumption, Suzi Giovannettone, Richard Achen, Ryan Riggs, Chris Maunu, Shaina Riggs, Brittney Klipfel, Chrissy Kopetsky. Back row: Nicole Storm, Alisha Groop, Betty Rohwedder, Elizabeth Fonder, Chrissy Heilman, Lindsay Maunu, Bridget Torrence, Jenny Kopetsky, Emily Sheldon, Anne Sheldon. Band

The band spent the year practicing hard for pep band, concerts, and contests. The Christmas concert was a huge success for the band. They worked hard to prepare for it and it turned out well. The theme of the Spring concert was "Forever Polyester." It was a flash from the past. A few of the band students attended music contest at Northern State University. Those who attended were Jon Fonder and Josh Underberg who performed a saxophone duet. Elizabeth Fonder and Jenny Kopetsky did a flute duet. Janel Walworth, Anne Sheldon, and Alisha Groop performed a clarinet trio. Jenny Kopetsky also did a flute solo. Elizabeth Fonder, Lindsay Maunu, Chrissy Kopetsky, Shaina Riggs, Jenny Kopetsky, and Brittney Klipfel were part of a flute ensemble. The band had a unique opportunity of combining with Hecla's band for the District basketball tournaments. "It was amazing to hear both bands joining forces. It really blew me away," said Anne Sheldon. Along with this they put on several fund-raisers to raise money for the band trip to Minneapolis in May. They sold wreaths, candy bars, and boxed chocolates. It was a year the FHS band will never forget!!!

BOOKS MOVED!

The books are gone! Gone from their old location to a new one that is. The library was moved from the second level north side location to the second level west room during the summer months to make room for an expanded computer lab. The new library site has better lighting from the windows and is warmer than the old site.

Some study halls were held in the library and the rest of the hours it was open for student research. The daily newspapers are still one of the hottest items of interest in the room.

Mrs. Rollo watched over the library each morning. She also went to the Barnard center library about one day every other week to keep things filed correctly. The bulletin boards and upkeep of the library by Mrs. Rollo was greatly appreciated. Plants, located throughout the building, were also watched over and many were contributed by Mrs. Rollo.

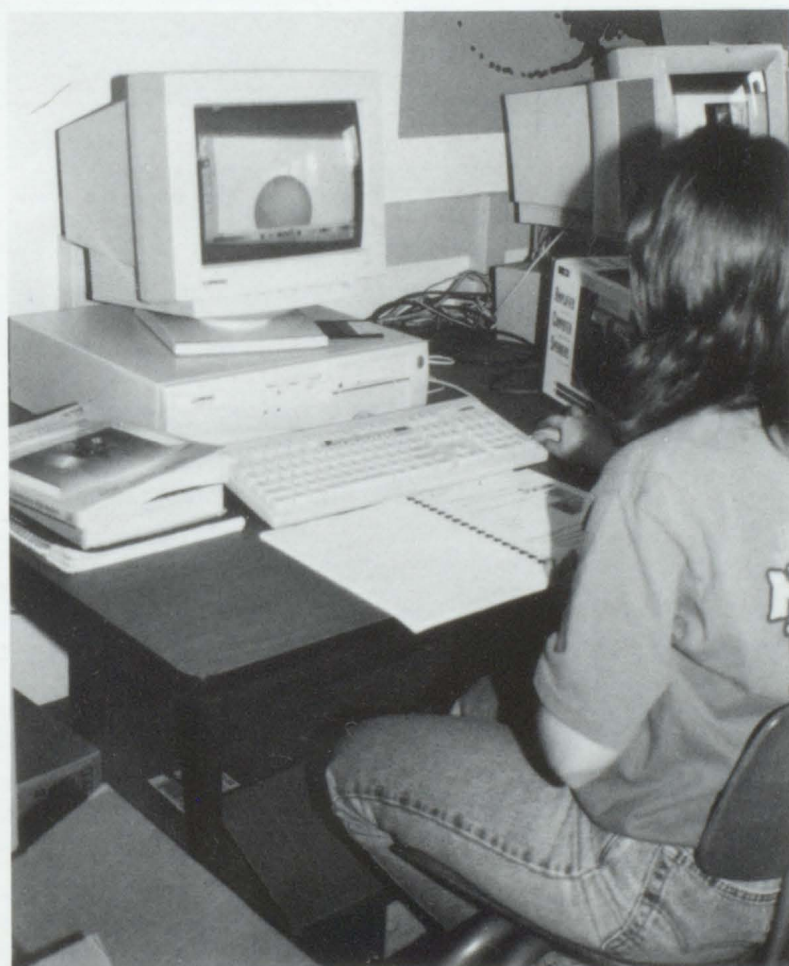

TOP RIGHT: Books were relocated to the second floor west room for students to use for research or enjoyment. MIDDLE RIGHT: Mrs. Rollo attends to filing duties as she so faithfully watches the library during morning school hours. RIGHT: One of Mrs. Rollo's bulletin boards this year included the alumni clips shown. ABOVE: Plants adorned many window ledges throughout the school.

Internet Projects Prevail

Internet access is now available to students. They waited for several months before it was hooked up to the twelve new computers. Before that time, only one computer was available for internet research and it was almost next to impossible to get onto that machine. Microsoft Office was used for classroom presentations, especially the power point segment of this software. Sounds were taken off the internet and imported into the powerpoint presentations to some nice effects. Powerpoint presentations were prepared for an integrated project with Apollo 13. Chemistry students also prepared a Powerpoint presentation.

The new computers with the new NT network provided the students with greater capabilities than were ever available before. With the speed in the changes in technology, it presents a problem for schools to try to keep up.

TOP LEFT: Junior students research on the internet for their Apollo 13 project.
LEFT: Suzi Giovannetone is creating a Corel draw design for Computer II class.
ABOVE: Jon Larsen and Mitch Wilson are using the internet to research for projects.

Old Network Relocates

The computer lab this year was moved to a new area in the school. Knocking out the wall between the library and the assembly room made plenty of room. With more space, Frederick High School was able to purchase twelve new compaq computers that offered many new and interesting features. The old IBM computers made up one side of the lab.

The students were familiar with these machines and found them easy to use. They were eager, though, to try out the new computers and have a chance to learn about the different kinds of files and options offered.

One thing that the students were able to use was a scanner, which allowed scanning pictures or photographs onto the computer. With this tool, one can easily make personalized Christmas cards or even WANTED posters, both of which the students made in order to become familiar with the equipment. A couple of students were able to take pictures with the digital camera. These pictures could be imported into the computer directly from the camera without the hassle of developing negatives. The volleyball programs were made using this method.

Powerpoint was another new feature that the students got to work with. This kind of file allows one to combine action, sound, and text in one file in

order to create a presentation. The junior English class used this file to create storyboard presentations of Apollo 13, one of the books they read during the year.

The new lab was exciting to work with. It was also beneficial to some members of the community. Postcards and tickets were a couple of the things produced by the students in the new lab for other people's use. It also allowed the students to use their own creativity to see what different projects they could come up with on their own.

TOP: The same machines and network of the old computer lab have moved to a different room. The room is even carpeted. MIDDLE: Mrs. Barondeau helps Dwight Pehl with the processing for the color cam activities. TOP: Trista Bunke, Kayla Johnson, and Jennifer Schmidt complete a computer assignment with the old network.

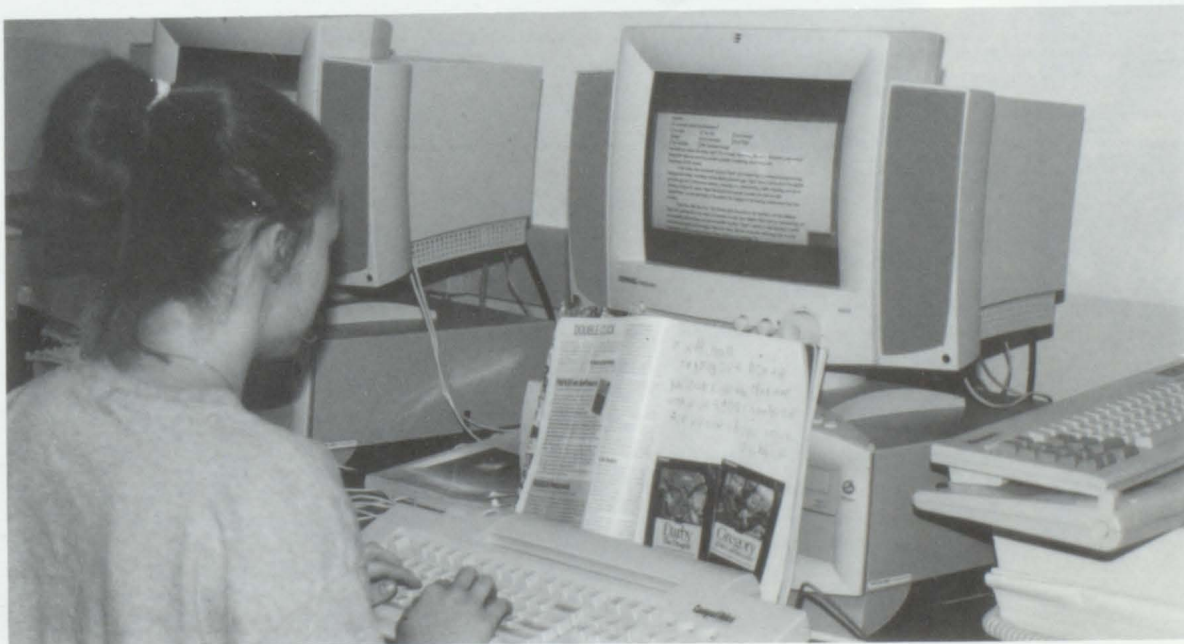

New Network Adds Zest

The new network has given students the chance to experience creative, manipulative software. With such added ability, students may create a wide range of documents, reports, presentations, etc. Mrs. Barondeau is the keyboarding, Computer I, and Computer II instructor. Mrs. Rall is the computer coordinator.

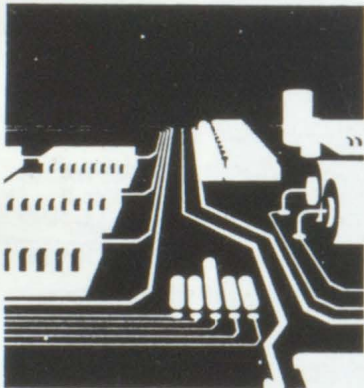

TOP: Twelve new machines were added to the new lab. MIDDLE: Mrs. Barondeau advises as Dave Schlosser works out a new program. BOTTOM: Lindsay Maun completes a Computer II assignment.

Vocational

The students that attended Vocational this year were kept very busy. They were involved in cooking, building, typing, and much more. Some of the students were part of an extra-curricular group called VICA. Jesse Holmes was the president for the 97-98 term. Those participating in VICA had several fundraisers, such as selling fruit to raise money for different activities.

The students attending this year were: Nathan Bakeberg, Warren Sumption, Travis Olson, Jessica Nilson, Lynn Huettl, Jon Larson, Elizabeth Fonder, Richard Achen, Derrik Sumption, Dustin Jung, Brian Jenson, and Jesse Holmes.

Top: Nathan Bakeberg works on a project in Precision Manufacturing.
Middle: Dustin Jung plots out his strategy before he plunges in.

Bottom: Vocational students prepare for the drive to Aberdeen. They are (from left to right): Jon Larson, Dustin Jung, Derrik Sumption, Warren Sumption, Jesse Holmes, bus driver, Clemence Braa, Nathan Bakeberg, Jessica Nilson, Travis Olson, and Brian Jenson. Not pictured are: Lynn Huettl, Elizabeth Fonder, and Richard Achen.

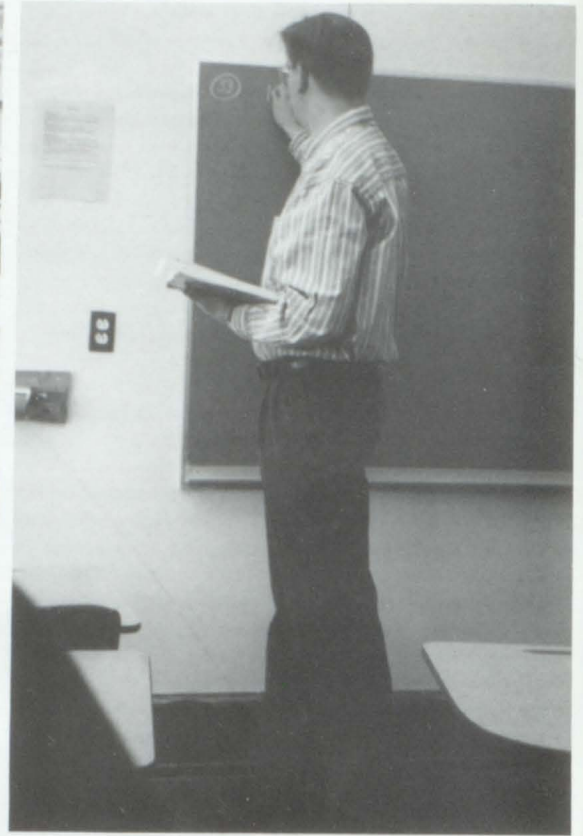

SUPPORT STAFF

Top: (left) Mr. Getty and Mr. Barondeau discuss bus routes with the Elm Valley bus drivers prior to the first day of school. Pictured clockwise from lower left are: Clemence Braa, Carol McCullough, Mr. Getty, Mr. Barondeau, Earl McCullough, and Lela Tveit; business manager. (right) Mrs. Sumption works with the elementary children at Barnard. Middle: (left) The Barnard cooks always prepare a well-balanced meal. They are Jan Bender and Faye Gunther. (right) Our new janitor, Richard Bakeberg always keeps our school looking clean. Bottom: (left) Laurel McDowell always takes time in her busy day to give you a smile. (right) The Frederick cooks, Marv Luoma and Donna Crawford, always serve their delicious creations with friendliness.

Faculty

Top left: The Frederick and Barnard Faculty listen intently to a speaker at inservice last summer.

Top right: Mr. Whaley works out a tough senior math problem on the board.

Middle left: The teachers found themselves becoming the students at the summer inservice.

Middle right: Miss Labesky counts up the money from the band's candy sale.

Bottom: Mrs. Brokaw and Mrs. Barondeau talk things over in the computer lab.

Administration

Our Superintendent, Mr. Getty, pauses from working to take this picture in his office at Barnard.

Mr. Barandean, our high school principal, is hard at work at his desk. Is that a pop you're drinking during school hours?!?

Business manager, Lela Tveit, is hard at work in her office.

The Elm Valley school district will be losing Mr. Getty after this year. He has served as our elementary principal for 10 years and as superintendent for 13 years. He has brought many advancements into our school and community, such as the telecommunications system. He will be greatly missed.

School Board

In attendance at this school board meeting are school board members: Janet Riggs, Judy Bretsch, John Sumption, Dennis Kinslow, and Deb Schlosser, Lela Tweit-business manager, and Superintendent-Leighton Getty. Seated behind board members are Bill Gustafson, Matt Gustafson (sixth grader representing the newly organized 5th and 6th grade student council) and Ann Hegge.

Recognizing Mr. Getty

If one were to display awards on a shelf of accomplishments for Leighton Getty, Superintendent, a large space would be required. Included on this shelf would be the first time in existence endeavors such as the North Central Area Interconnect (NCAI). Such a telecommunications system had been a dream of Mr. Getty's for over ten years. This year, to have used such a system to connect to Finland had to give him great pride. Another dream of Mr. Getty's was fulfilled by the beginning of the Hi-Tech modules. These technology units travel between schools in the area giving many students the chance to experience working with items too expensive for single schools to purchase. Being a leader in an active special ed. coop, where they organized some very successful before-school-year inservices (as well as many other successful ideas), and to be instrumental in organizing an athletic coop are only a few of his many additional accomplished deeds. Mr. Getty has received numerous awards and just to mention a few would be to name the Little Red School House Award and The Leadership in Technology Award.

SURVIVING DISAPPOINTMENTS

The 1997 football season was a disappointing yet experiencing season. With six of the Northstars (three seniors) suffering injuries and missing out, the Northstars were left quite short handed. The Northstars went 0 - 8 after losing their season opener to Faulkton. This also earned the Northstars last place in the Lake Region Conference.

The defensive attack was led by senior Warren Sumption with 143 tackles. He was followed by juniors Dustin Jung with 110 in four games and Justin Kopetsky with 69.

Warren Sumption also led the offensive attack with 805 total yards, followed by senior Nathan Bakeberg with 174 total yards. Junior Dustin Jung acquired 137 total yards.

Next year the Northstar Football Team is looking to be back in the LRC championship chase with many of the younger players gaining experience and earning a spot in the line up with the injuries of the upperclass men.

BOTTOM RIGHT: Justin Kopetsky runs with the ball after receiving the handoff from quarterback Levi Dinger.

Junior high Northstars includes(left to right): FRONT ROW: Coach-Terry Nelson, Opie Dahlman, Eric Willhouse, Justin Schmidt, Ben Pitz, Jordon Torrence, and Coach-Kevin Quimby. ROW TWO: Nick Leigh, Eric North, Eric Bergan, David Bretsch, Ryan Elsen, Cody Bruns, Student Manager-Brett Riggs. ROW THREE: Daniel Elsen, Jon Mardian, Cole Heinrick, Brian Schlosser, Tanner Knecht, Luke Daniels, and Adam Heinrick.

Northstar Girls Basketball

The Frederick-Hecla girls basketball team had another successful year, finishing the season with a record of 12-8. From Frederick this year, there were five girls participating. They were Joni Napton, Lindsay Maunu, Jenny Kopetsky, Darlene Napton, and Jenny Schmidt.

Mrs. Karla Karst of Hecla replaced her husband, Dan Karst, as assistant varsity and head junior varsity coach while he was in Hungary on duty for the Army Reserves. Several girls were able to have reasonable playing time and gained valuable experience this year.

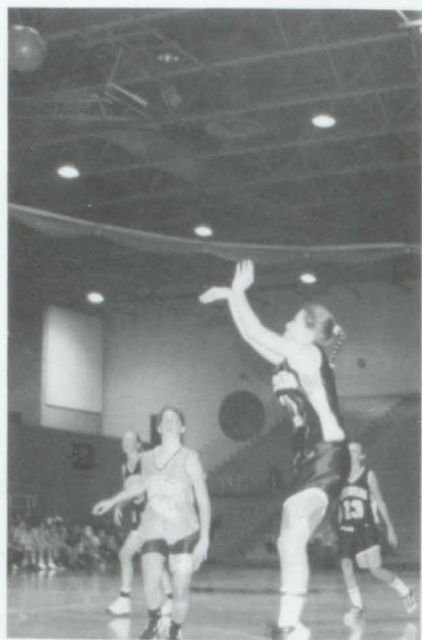

"We had to play through a lot of adversity this year mainly due to injuries and illness. Because of this, we had a hard time finding continuity. Overall, the girls handled things pretty well and we made it to the district championship game for the first time in several years." said coach Uttermark.

TOP: Coach Uttermark goes over a play during a timeout.

MIDDLE RIGHT: Lindsay Maunu shoots the trey during district action.

MIDDLE LEFT: The 'Stars watch as a shot goes up.

BOTTOM: Counterclockwise the team is: Coach Uttermark, Nicole Daniels, Lindsay Maunu, Joni Napton, Michelle Bruns, Rachel Bruns, Rachel Daly, Elizabeth Slight, Teanna Winburn, Emily Elsen, Missy Bruns, Jacey Skoglund, Andrea Zastrow, and Jennifer Schmidt.

Northstar Volleyball

The Frederick-Hecla Northstar volleyball team started the season off with a winning attitude, but the motivated team couldn't quite "serve up a victory" for the first few games. Before each game, it was common for the crowd to hear the Northstars shout "Together Everyone Achieves More," from the team huddle. Even though the Northstars didn't win many games, they played well, came together as a team, and learned from their motto. The team learned that there is no "I" in team, and that you have to work together in order to be successful. Our first victory was a home game against Roncalli Junior Varsity, with the score being 2-0. There were many close games that they played, but they came up short in the long run. From November 24, 1997, to February 14, 1998, the Frederick-Hecla Northstars volleyball team gave everything they had every day in practice, especially during our "ten minutes of torture", and improved immensely from the year before, and never ever gave up.. At districts, which were on February 14th

at Eureka, the Stars started the day off with a victory over Selby with a score of 2-1. Their next game was against Eureka. They fought a hard battle but lost with a score of 1-2. Continuing on with their journey, they again had to play against Selby. They had a well deserved victory with a score of 2-0. Then in the semi-final round they once again had to play Eureka. The Stars suffered a tough defeat with this season ending game with a final score of 0-2. Even though they ended up 3rd in districts, the coaches and players were happy with how everyone had performed for the season. With the help of the coaching staff which included: Brenna Lavold, Melissa Waddell, and Sheldon McGorman, we were able to learn more about the game of volleyball through their various past experiences, learn more about each other, make new friends, and of course have FUN! The Stars are anxious and can't wait, for next year!

Varsity Team

Back Row l-r: Coach Brenna Lavold, Brigit Torrence, Nicole Storm, Joni Napton, Darlene Napton, Christina Heilman, Jennifer Schmidt, Stat. Kim Kinslow, Nicole Daniels, Assis. Coach Melissa Waddell. Front Row l-r: Jennifer Kopetsky, Lindsay Maunu, Elizabeth Slaight, Alisha Groop.

Season 1997-1998

This picture shows our eagerness, talent, and determination.

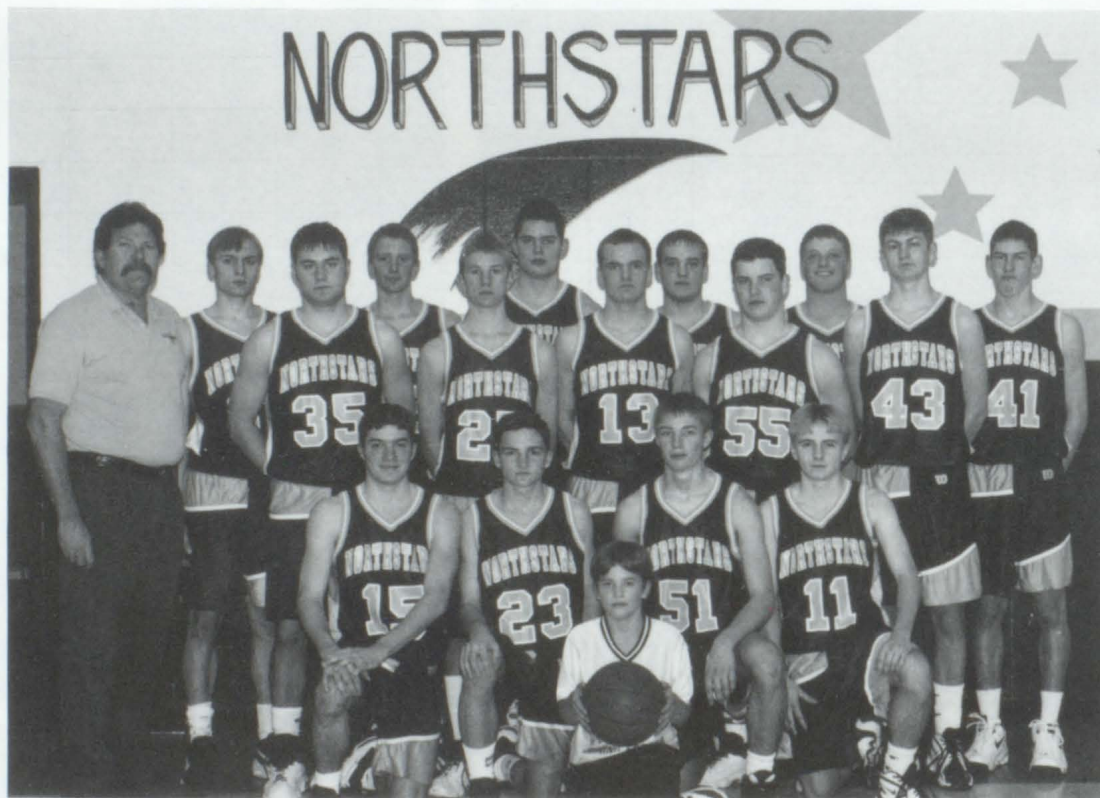

Northstar Basketball

A season that started out in agony ended in ecstasy when the Frederick-Hecla Northstars advanced to the State B Tournament for the first time as a co-op. It was Frederick's first trip since 1967, and Hecla's first since 1994.

It was rough going for awhile as two of the team captains began the season on injured reserve, recovering from injuries incurred during football. Both recovered, however, and made excellent contributions. Derrick Dinger was the team's leading scorer and rebounder, averaging 18 points, 9.6 rebounds, and 2.6 assists per game. Jeremy Skoglund

averaged 2.8 assists per game.

The other three co-captains also had outstanding seasons. Warren Sumption paced the 'Stars in assists and steals, averaging 11.3 points, 5.2 assists, and 4.1 steals per game. Nathan Bakeberg poured in 11.3 points per contest and also grabbed 5.5 rebounds per game. Collin Shelton scored 7 points a game, dished out an average of 2.9 assists a game, and stole the ball an average of 3.5 times. Dinger and Bakeberg led the squad in shooting as well, with averages of 48% field goals, 79% free throws; and 49% field goals, and 79% free throws, respectively. Justin North also chipped in with 5.7 boards per game.

The Northstars include: (back row) Coach Terry Nelson, Jesse Frohling, Tim Lloyd, Perry Dinger, Derrick Dinger, Nathan Bakeberg, Justin North; (middle row) Jeremy Skoglund, Ryan Riggs, Warren Sumption, Dustin Jung, Jordan Widstrom; (bottom row) McLane Mertz, Neil Karjalainen, student manager Robert Nelson, Adrian Daly, and Collin Shelton.

Season Extended

During the post-season Frederick-Hecla avenged three of its regular season losses by beating Doland-Conde and Warner to claim the District 2B title, and later handling Roslyn to win the Region 1B championship. The 'Stars suffered disappointment in the State Tournament, however. Coming in as the 8th seed, they put up a valiant struggle before suc-

cumbing to top-ranked and undefeated Midland. In the consolation bracket, Frederick-Hecla lost to Castlewood, and then battled Geddes to the finish before finally coming out on the short end and finishing in 8th place. When asked about the tournament, Ryan Riggs commented, "It was a great experience. You got to meet a lot of spectacular athletes."

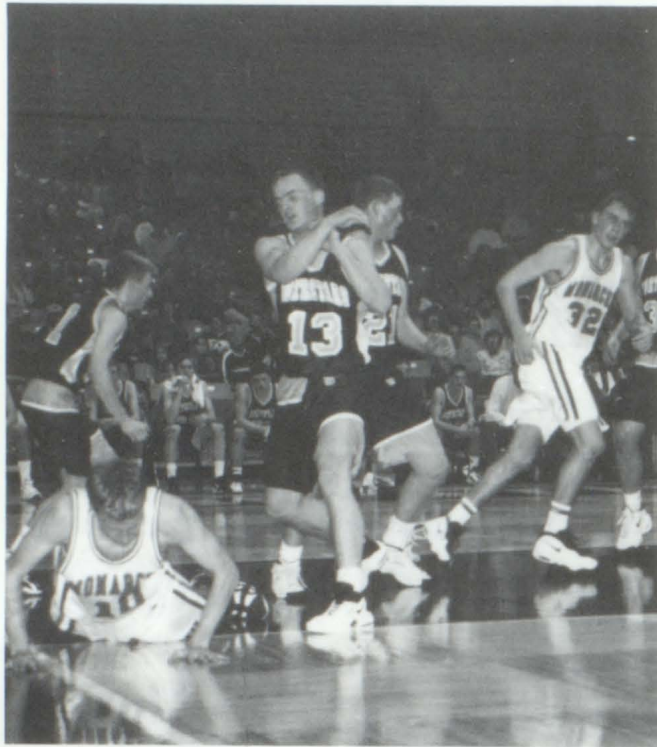

SCOREBOARD

Below: Nathan Bakeberg plows his way in to throw up the hook shot.

Above: Neil Karjalainen waits to see whether or not his shot will fall. Below: Bakeberg thinks about driving past the Castlewood defender.

Cheerleading

During the summer of 1997 all of the cheerleaders came together to choose new uniforms to complement the new school colors. They then attended several cheerleading camps.

The football cheerleaders for this year were Betty Jo Rohwedder, Elizabeth Fonder, Alicia Krueger, and Twyla Sumption. They did a great job of getting the crowd going at those cold football games.

Once again, the co-op has benefitted the basketball cheerleaders. Elizabeth Fonder, Twyla Sumption, and Suzi Giovannettone cheered for the junior varsity team. The varsity squad consisted of Rochelle Zastrow, Michelle Bruns, Teanna Winburn, and Alicia Krueger.

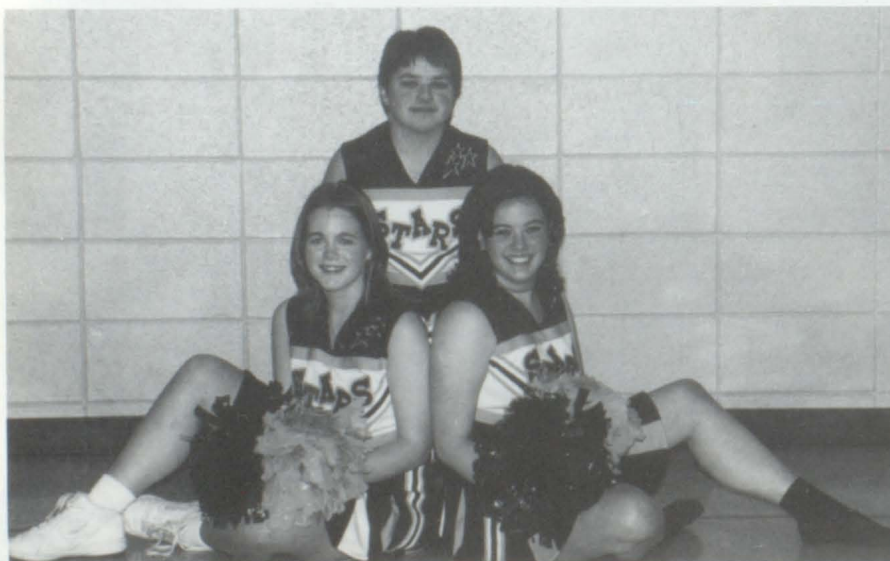

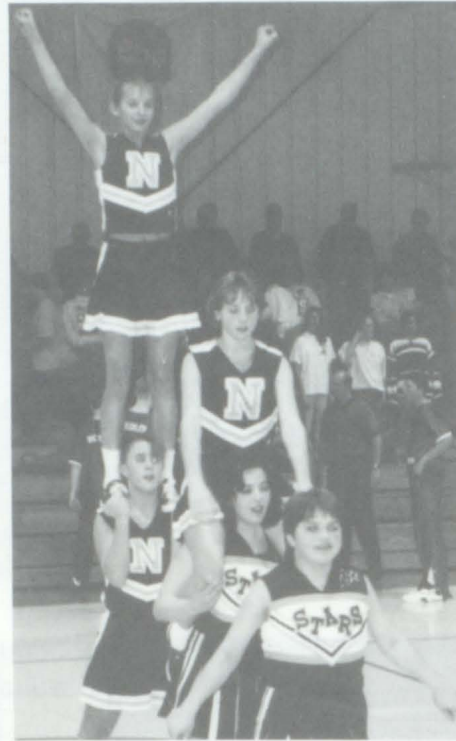

Many times all of the ladies could be seen together putting up signs, practicing together, and putting together half-time routines.

A highlight for the basketball cheerleaders this year was being able to cheer at the State B tournaments. The week of State B's, they decorated the schools and got everyone into the spirit. It was a great year for cheering!

Top: The basketball cheerleaders form a pyramid during the school song. They are (top) Michelle Bruns, (middle) Rochelle Zastrow, (bottom, from back to front) Alicia Krueger, Elizabeth Fonder, and Twyla Sumption. Not pictured Teanna Winburn.

Bottom Left: The junior varsity basketball cheerleaders were: (in back) Twyla Sumption, (front left to right) Suzi Giovannettone, and Elizabeth Fonder.

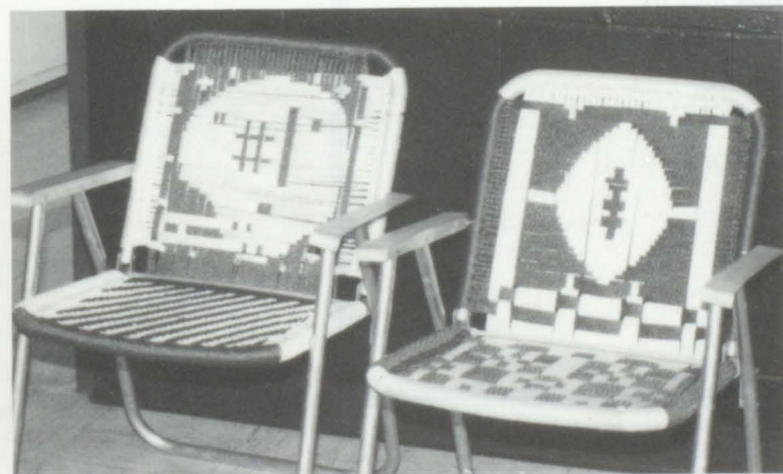

Bottom Right: The football cheerleaders were: (in back) Twyla Sumption, Betty Rohwedder, (in front) Alicia Krueger and Elizabeth Fonder.

Booster Club Assists Youth

The Northstar Booster Club consists of parents of students involved in Northstar sports. These members work to earn money for needed uniforms or sports items as well as doing good deeds for the students. Some of the activities at Frederick involved sponsoring a supper before a basketball game, conducting a raffle for two woven lawn chairs, and compiling and selling cookbooks. On the Sunday of the welcome home for the boys basketball team from the State B tournament, they had decorated cakes and food for all participants.

TOP: Diane Bruns collects the money for the pre-game supper. Rich Bakeberg heads to the gym to watch another great basketball game. MIDDLE: Margaret Sumption, Gayle Bakeberg, and Laura Torrence were three of the many who helped sponsor the pre-

game supper. ABOVE RIGHT: Decorated cakes were served for the Northstars upon the return from the State B's.. ABOVE LEFT: Leo Martilla made the two woven chairs raffled by the booster club.

Dedicated to the Class of 1998

As we look into the future,
Our minds slowly drift,
To the past that we remember
And the journey short and swift.

We remember how we started,
All standing scared and shy.
And here we are again
With our futures shining in our eyes.

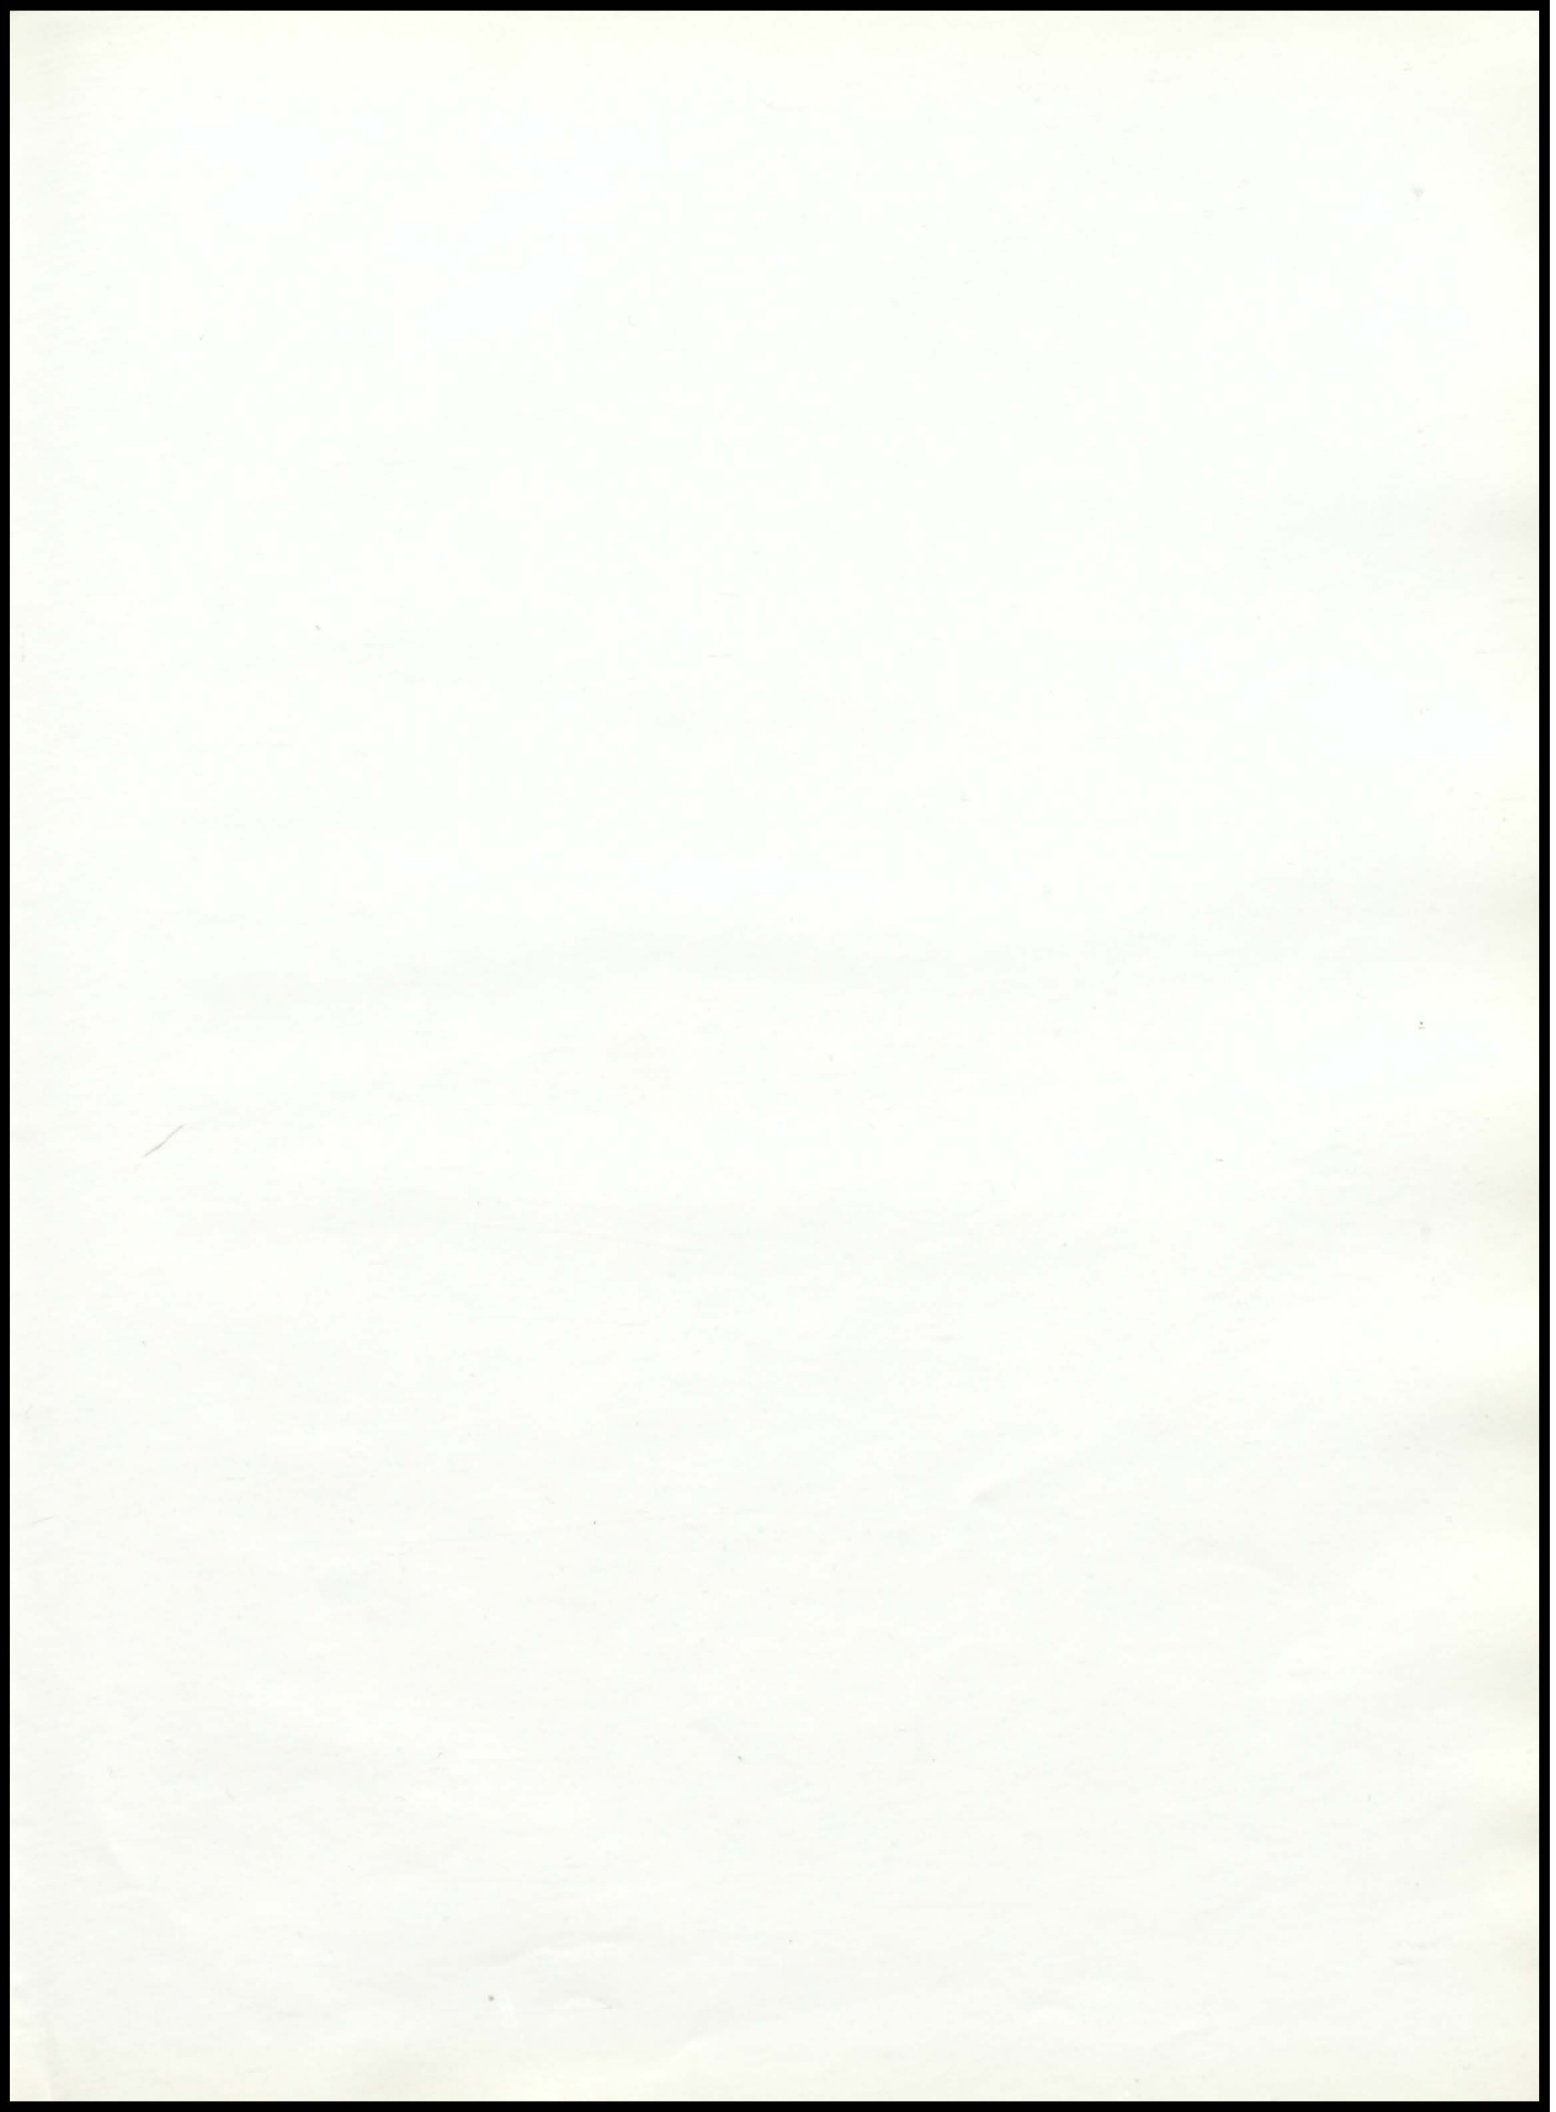

The world has opened up it's doors
And is beckoning us inside.
Here we must part our paths,
And until we meet again, say goodbye.

We'll never forget the faces
Of those we're leaving behind.
We'll carry them with us
Forever in our hearts and minds.

The time has finally come
To spread our wings and fly,
To live the lives we've dreamed of,
And sadly say goodbye.

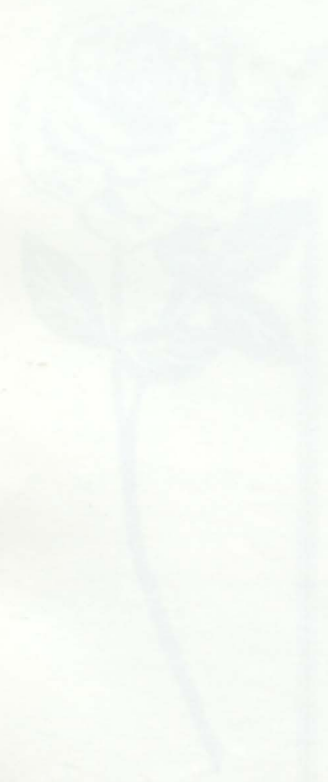

From: Janel J. Walworth

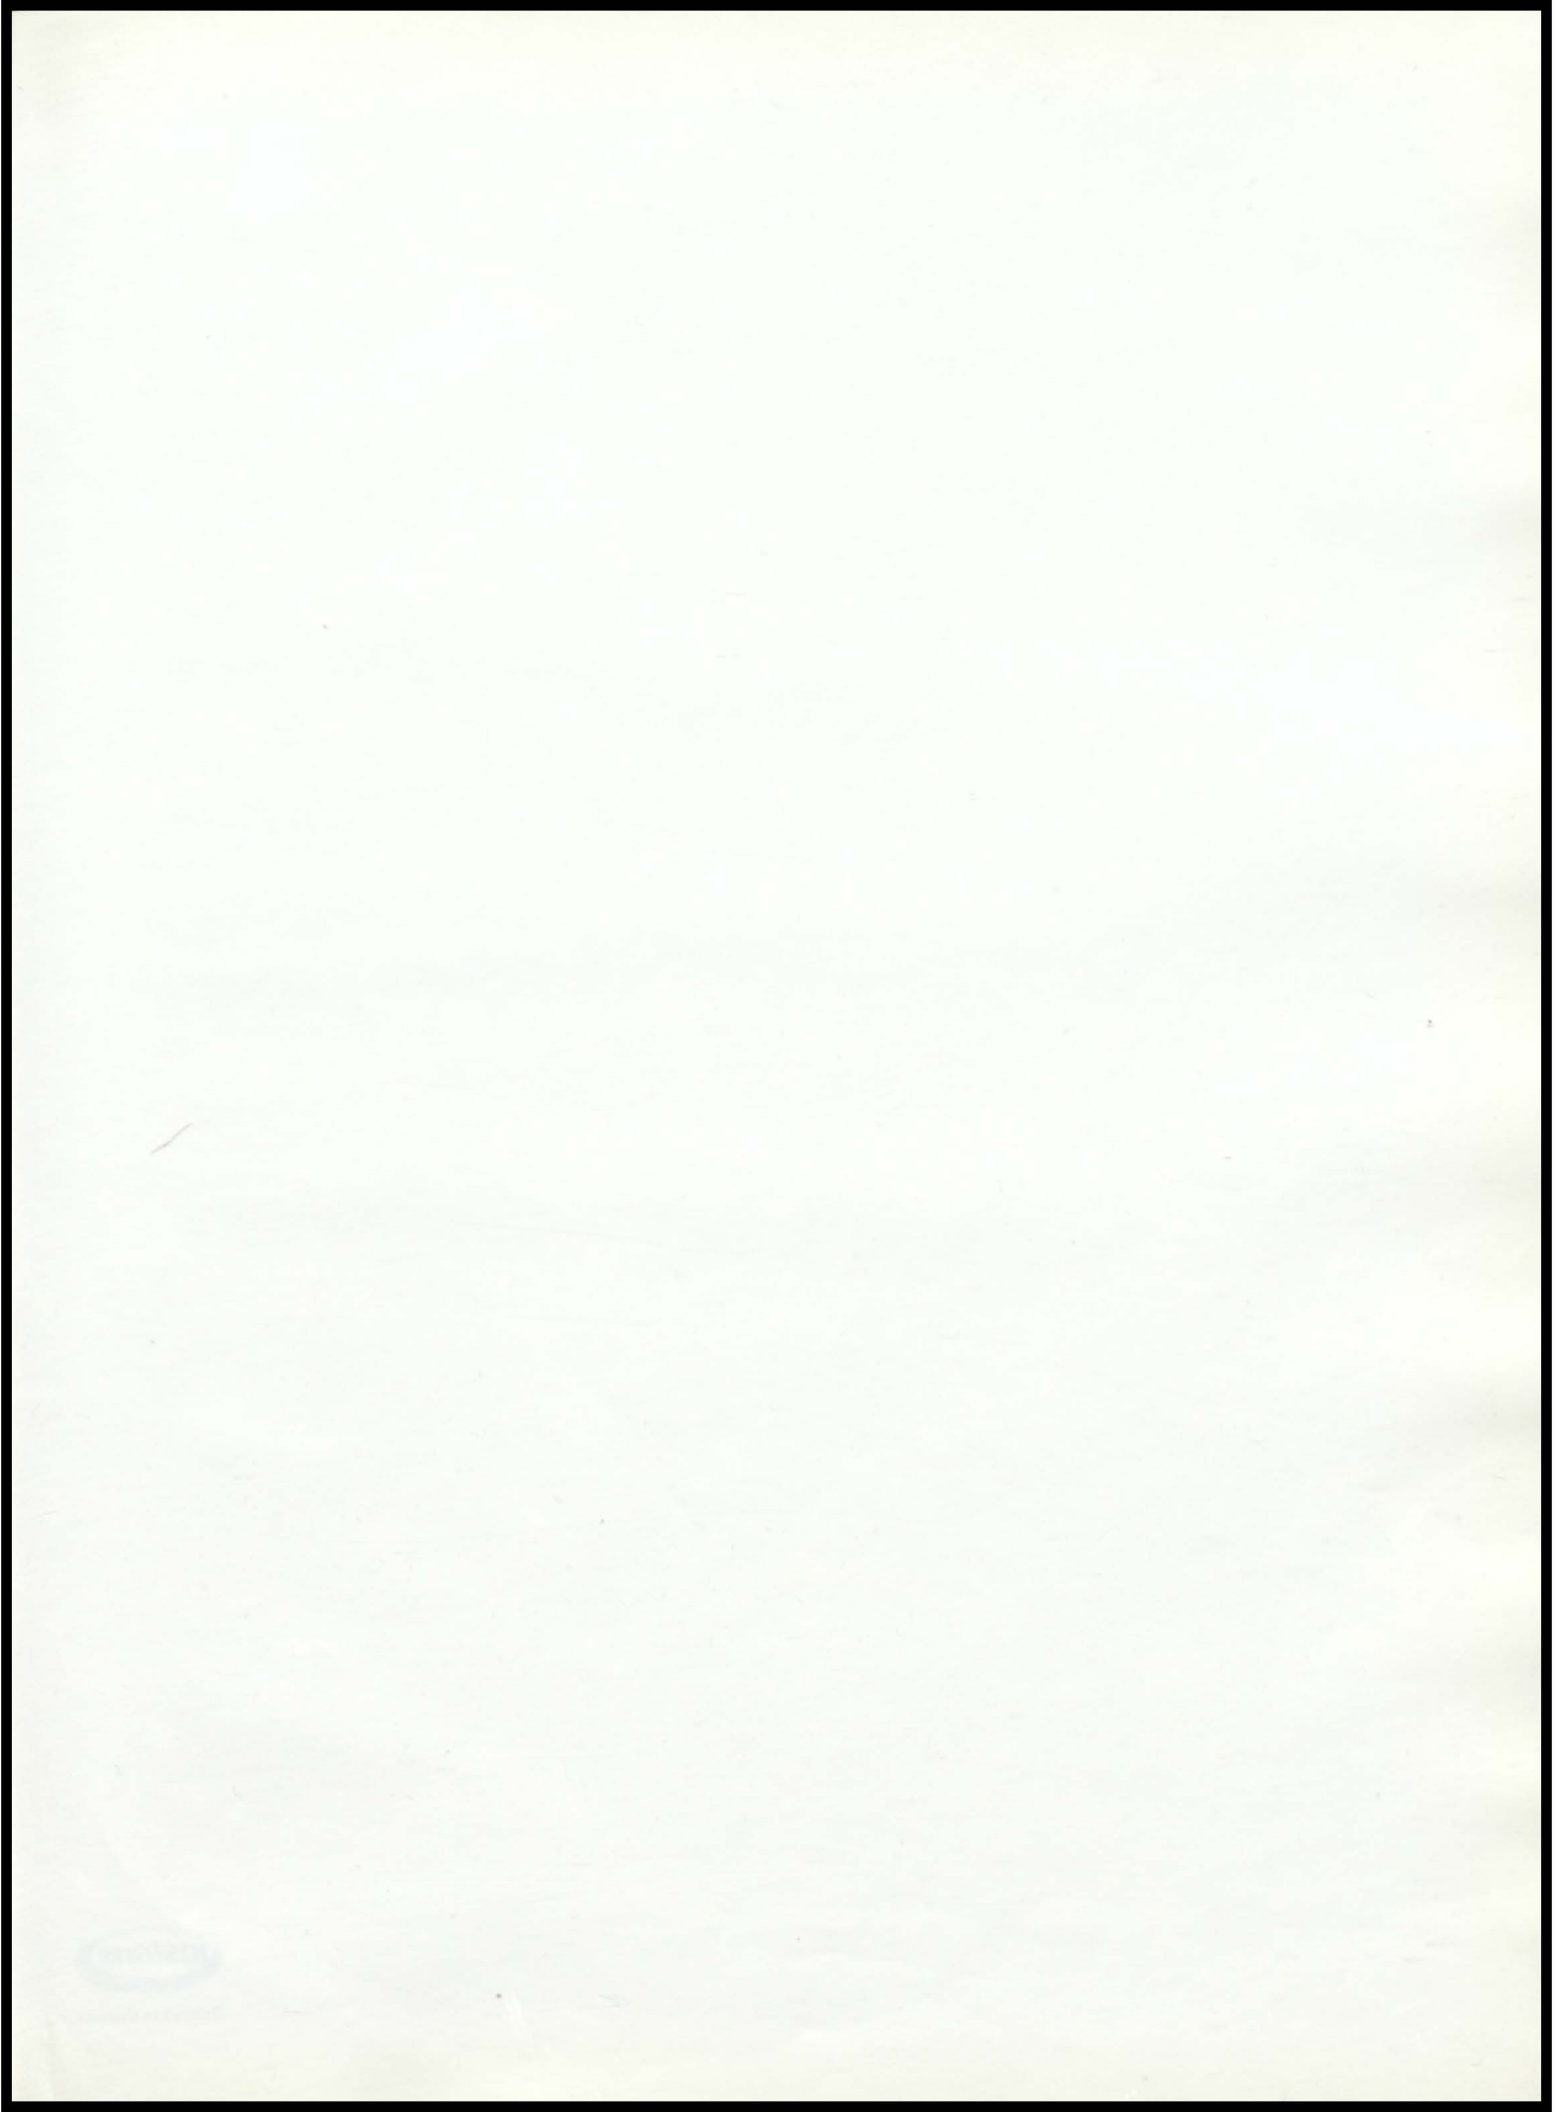

Dedicated to the Class of 1998

For the first time in history
The sun is shining bright
The birds are singing sweetly
And the flowers are in bloom
The children are so happy
The laughter is so loud
The world is full of joy
The future is so bright
The stars are shining clear
The moon is in the sky
And all the world is one
The love is truly great
The peace is truly true
The hope is truly real
The faith is truly strong
The love has finally come
The peace has finally come
The hope has finally come
The faith has finally come
The love has finally come
The peace has finally come
The hope has finally come
The faith has finally come
