# CAN'T TOUCH US

From performing to drill team to just jamming, the Seniors of '91 chose "CAN'T TOUCH THIS", a favorite rock tune by MC Hammer, as their senior theme.

"We're the ones who know more and rule better than anyone in this school, it's so incredible nothing can compare", a personal definition of the theme.

This song vividly describes the 14 graduates activities throughout school and hopefully in fulfilling any life-time dream.

# DEDICATION

We the Senior Class of 1991 give this yearbook a double dedication. The many people who are acknowledged here are very special to us. We hope they realize just how important they are.

The first part of this dedication goes to our parents. Each and everyone of them has helped us through all of our four years of high school and our whole lives. Our enthusiastic parents went all out to lend a hand during prom time and a lot of other important activities. We could count on them always.

As we all go our own ways, we will keep these memories in our hearts and minds through our lives. This book will be a little reminder to them of how much their generosity and helpfulness has meant to this class.

The dedication's second part is just as important as the first. We dedicate it to every United States soldier that have been involved in Operation Desert Storm. We have thought about these many men and women since the first day the conflict started. This is to show the soldiers in our area and soldiers from across the country how proud we are of them. This class will never forget them and what they have done.

## Activity is key

The Senior class of 1991 was always known as a very close and active class. From playing basketball in the fifth grade to performing a musical version of the play "Tom Sawyer" in the seventh grade, the class was determined to be active. By ninth grade the class had seven members in band, and as sophomores there were four drill team members. As juniors, the class brought the prom back to the FHS gym.

In their senior year they made decisions on class colors, flower, and motto. Another decision to be made was what to do after graduation.

The class took several trips in their senior year. They included an English trip to Seca Hollow, Physiology trip to Aberdeen, and a Government trip to Pierre. They also had the pleasure of having a foreign exchange student from Germany.

The seven senior band members travelled with the rest of the band on a trip to Valley Fair, where they were the band of the day on May 5th.

The Seniors ended their year with a "CAN'T TOUCH THIS" attitude reflecting all the activities they participated in.

# Plan for prom

As the Junior class enters its final years of high school, it takes on a few more responsibilities. These range from setting up concessions every home game to planning a spectacular prom.

This year a little of the load was lifted with the help of the

PTA. They helped at the games and put on a supper for the class. (Remember lasanga vs. beef stew?)

After all their activities are out of the way the Junior class will have alot to look forward too. They have a great future ahead of them. Can't touch'em!

# New students

To start off the year right, the Sophomore class took on a major project. They held a chicken supper before the Homecoming football game. It was such a success that they didn't want that feeling to end. So, they strived to make their speeches in speech class the best ever; workable projects in computer; and beautiful oil paintings in art class.

For this class there were many changes and times of togetherness. Some of the changes that they saw were in seeing two new faces

among the old. They welcomed Kristie Sandve and Rich Zens into their little 'family'. The Sophomore girls had to stick together when the Senior guys started to 'gang up' on them.

Now that this class has gotten over the shock of being in high school, they have two more years to relax and have fun. With their need to form togetherness and show support for each other, they strived to become a close 'Can't Touch Us' class.

# Slave sale

The first year of high school can prove to be difficult. The classes are harder and every freshman gets sold at the slave auction.

When asked whether or not they enjoyed the slave auction the majority of them said yes they did. "Ya, the ones who skipped out missed out on alot of fun," said one student. Makes you wonder if some did not like being put in embarassing situations.

This year the freshmen class was included in the Homecoming activities. They placed 1st in the skit division and 3rd in the float division. It just goes to prove it's a "Can't Touch Us" class!!!!

# Two new teachers

Leading the Jr. High this year were thirteen energetic (for activity) students. They have been involved in a number of activities ranging from basketball to band and chorus.

A familiar face to the eighth graders was Mr. Shetler, new to the Elm Valley staff. They could see him up to four times a day. Mr. Shetler taught History, Civics/Health, Physical Education, and had first hour study hall. Also new to the eighth grade room was Mrs. Sevig, the English teacher. She and Mr. Shetler were the Junior High advisors. They helped them plan and supervised the building of their float for Homecoming.

Along with new teachers, eighth graders had Mr. Kendall for Science and Mr. Whaley for Math. With this leadership and their energy they proved to be a "Can't Touch Us" class.

## Bowling party

The 7th grade class got to go bowling with the upper classmen for Thanksgiving. They all seemed to have fun. This was the first time the 7th and 8th graders were able to come along.

The girls kept their study hall hours busy by decorating bulletin boards. They used their unique ideas to come up with some cute bulletin boards to brighten our school.

In class they have been very busy as usual. After every science test they have to do a report on current events. They also read The Diary of Anne Frank and did many projects with it.

Did anyone see any seventh graders eating candy during last hour study hall? They seem to be so busy that you just Can't Touch them!

## Soccer game

The 6th grade was kept busy this year with many things. They were busy learning to type, sewing Christmas stockings, and competing for student of the month. They were also involved in the fundraising soccer game with the 5th graders, to make money for the United Way. You Can't Touch that activity.

## Earn rewards

The 5th class has many exciting things happening. Every Friday they get to keep up with what's going on in the world today. They also get rewarded for their good behavior by parties and by spelling different things for each day that there are no checks on the board. You Can't Touch that fun!

# Baked Goods Donated/Paul Bunyan Project

Bake! Mom, Bake! The fourth graders helped bring baked goods used for the Bake Sale at the 5th and 6th grade soccer game. They were also in the program held on Career Day. "Can't Touch" that participation!

Third graders completed a Paul Bunyan project. After their study of trees, etc., they had a special day when they dressed as Paul Bunyan and made pancakes. "Can't Touch" that activity!

# Money for United Way/Careers From a Bag

Second graders held a bake sale for the 5th and 6th grade soccer game held in the fall. the proceeds (amounting to about \$150) were all donated to the United Way. "Can't Touch" that project!

On November 28, the elementary school had a Career Day. The first graders decorated and wore paper bags to illustrate their individual chosen careers. "Can't Touch" that idea!

Upper: Second graders are: FRONT ROW: Eric Jensen, Andrew Myhra, Craig Karjalainen, Adam Rahja, and Joshua Underberg. MIDDLE ROW: Jessica Winther, Adam Achen, Alaina Sanderson, Jared Voeller, Brett Riggs, and Kayla Fischer. # Fruit fest held

There were 17 new faces in Barnard this year. They belonged to the Kindergarten class.

There was also another new face in the class Aneica Behm, a student teacher. She was with them until December 21st. An activity that was taught by Mrs. Behm was a Thanksgiving Fruit Fest. Each student was asked to bring a piece of fruit.

This is just the beginning of a "Can't Touch Us" class!!!!

# Roaring Homecoming

When Homecoming came around for another year everyone's mind was on cars and the float competition that would be held during the parade. The Junior class thought they would be the reigning champions for the third consecutive year, but as the pomp-stuffed cars went rolling down mainstreet, it was a different story. The Sophomore class, with Mr. Oster's supervision, pulled through.

During the activity-filled week the girls had two basketball games. They drove over Ellendale and got roasted by Langford. The football game Friday night was a battle. But in the end the excitement of homecoming didn't give them enough power. The teams did suffer two loses, but you still CAN'T TOUCH 'EM!

Coronation night brought out the creativity and imagination of all the classes. The skits ranged from pretending to be cars themselves to eating a car for supper. The night ended with a bang at the bonfire and Homecoming week ended with a Frederick-Hecla dance after the football game.

# Final performance

Smile! Concentrate! Let's see some pep! These are the commands you could hear coming from Mrs. Eisenbeisz as she advised the drill team for one last year.

Even though the number of participants were low, the spark and enthusiasm kept dancing on through! Performing to songs such as "Vanilla Ice", "Funky Christmas", and other popular 90's tunes, the Frederick Vikettes demonstrated to gazed watchers that they "CAN'T TOUCH US."

Only twelve miles away, the Ellendale drill team, the Cardettes, performed for one home game to show the different types of dance that can be done in this sport.

# Stories for Youth

Library Club has been pretty much the same throughout this year as last. There have been a few new ideas added.

Story hour has been a new experience. When you work with one class you get to know them better and understand them. We also have the chance to further their knowledge in library skills.

A new program is the Accelerated Reading program. The program is both in the elementary and high school. In the elementary, it's a CANT'T TOUCH THIS program they're going at it however, the high school was a little slow getting into the books, but like it's name, it's really beginning to accelerate.

## FUN organized

What does FUN actually stand for? FUN stands for Friends United Naturally. It's a group of students who were previously in Torch, Peer Institute, and Teen Institute. So they decided to form one group called FUN. Some of the responsibilities FUN students take on are 3-D week, they hold alcohol free activities, such as dances. The FUN students are so busy this year you just "CAN'T TOUCH EM!"

## Cherish the moment

A night for butterflies and nervous twitches, beautiful girls, and soft music can clearly describe the night of December 1st. On this clear and cool evening, the Elm Valley Community Club once again sponsored the Snow Queen contest where 5 senior girls and 6 freshman vied for the titles as queen.

Several people from the community participated in the event by performing their talents and a special surprise was the presence of the 1990 SD Snow Queen, Krysti Arnold and Rebecca Richter, the SD Jr. Snow Queen.

After all this preparation, calmed nerves, and settled butterflies, the "CAN'T TOUCH THIS" evening came to a close with the crowning of Deserae Smith as the Senior Snow Queen, Jessica Rowhedder as Junior Snow Queen, and Becky Sumption as Miss Congeniality.

FAR RIGHT: Each morning Mr. Jensen gives announcements over the intercom. He keeps the students informed about all upcoming events. RIGHT: Mr. Getty is frequently seen at the high school office and with staff.

## Announcements given

Plans for the new telecommunications program continued during the 1990-91 school year. Supt. Leighton Getty attended several meetings with other schools, other area administrators, numerous companies to make all the necessary plans needed for telecommunications reality.

The school board received two new members: Wayne Schleder and Dennis Kinslow, and had three returning members: Kenneth Ham--President, Sally Larsen, and Rayma Scepaniak.

Around the high school, the old brown building, which had been on the school premisses for many years, was moved away and the parking lot was expanded. "Can't touch that change!"

The administrators continued to plan and hold all-staff breakfasts one morning per month for the purpose of sharing time together and for staff development topics.

Mrs. Sharon Bain continued as our school business manager while Laurel McDowell was the secretary at the high school. Margaret Sumption was the teacher's aide at the Barnard Center.

ABOVE MIDDLE: Secretary--Laurel McDowell keeps track of funds and records. She helps the students whenever she can. ABOVE: Business manager--Sharon Bain prepares another fun report. LEFT: Teachers enjoy a 7:30 a.m. breakfast once a month as a way to help keep harmony.

# Dissecting continues

The hands on activities in science classes help students get a clear picture about what textbooks are talking about. From the dissecting of earthworms to frogs in biology, to the bigger more detailed dissecting of the fetal pigs in physiology class, students can see body parts and better understand the functions of those parts. Students in chemistry were shown how chemicals interact by watching and performing different experiments. "Can't touch this hands on learning!"

Mrs. Roberta Eisenbeisz taught the freshmen physical science, sophomore

biology, junior chemistry, and senior physiology classes. Mr. Roger Kendall taught the seventh grade and eighth grade life and earth sciences. Mr. Kendall and Mrs. Eisenbeisz both had first hour study halls for high school students and they both were senior class advisers.

Mrs. Eisenbeisz had a student teacher from Northern State University, Mr. Marty Looyenga, who observed in the science room from Feb 25th through the end of the year.

# War updates

This year Mr. Oster made a big addition to our school. Actually it's at the football field, but still the same it's a huge improvement. With help from his father and the whole community, Mr. Oster built the Northstar Stadium. He not only did this for the athletic department but he also helped out with the new scoreboard, which is now in use in the gym.

Through out the year Mr. Oster kept busy. This summer he got his Masters Degree in Administration. During school he gave Mr. Jensen a hand with the Athletic Director duties. Mr. Oster completed all of these activities, taught all of his classes, and still found the time to be a Brown County Commissioner. YOU CAN'T TOUCH THAT BUSYNESS!

## Elementary art

Mrs. Schanzenbach was kept busy this year with the addition of the art classes she now teaches in Barnard. She also taught art to the junior high and sophomores at Frederick. She had her art students at FHS prepare various bulletin boards and make spirit posters for the gym. Mrs. Schanzenbach also made a bit of art herself by making the background for the Snow Queen Contest.

Along with her art classes, Mrs. Schanzenbach taught seventh grade Home Economics and taught four stu-

## Review game

Mr. Joe Shetler came to our school from Lead, SD. His wife, Cindy, is also a certified teacher. She has substituted at Elm Vally and Aberdeen this year. They have two sons Bill, in kindergarten, and Brad, who is four.

Mr. Shetler's classes include: sophomore World History, 8th grade American History, Health, Civics, 7th grade Geography, and 7th and 8th grade Physical Education. He is also the head boys and girls basketball coach and assistant track coach. When asked what his special memory in coaching was, he replied, "the girls at Red Cloud going to Regions for the first time ever!" The hardest thing about teaching is teaching what you are supposed to and still trying to make it fun.

The 8th grade and sophomores had a type of review game with Mr. Shetler. If they answered a question correctly, they got to shoot a basket and if the basket was made they got a point. YOU CAN'T TOUCH THAT WAY TO REVIEW!

dents one semester of Economics.

Once again Mrs. Schanzenbach had the privilege of being one of the junior class advisors. With this privilege she had the honor of helping with prom. She made sure everything was just perfect for the big night. She also helped with the junior class beef stew supper, which was a huge success. CAN'T TOUCH THAT VARIETY IN EDUCATION!

# Effective schools

Mr. Tom Whaley and Mrs. Sue Maunu, along with Mr. Doyne Jensen, principal, were members of the Governor's Centennial effective schools program. The three people spent one week in Pierre for training in June of 1989, three days in June of 1990, and will meet a final time in May of 1991.

Of the 51 school selected to participate, Elm Valley high school was one of 23 schools who participated. Each of the 23 schools, after training, filled out applications (including proof of improvements in their own school) to receive special money to be used in the school. Elm Valley HS has improved attendance and taken steps to improve reading abilities. The money received has been used for three computers, software and books for the accelerated reading program, a speed reading program, and students were taken bowling as a reward for good attendance. The school attended the stage production of "Taming of the Shrew" for enrichment. The remainder of the \$10,000 may be used next fall. "Can't touch the spirit of the school and team to try to improve!"

The biggest change in Mr. Whaley's room was the addition of the LCD (a liquid crystal display) used in the computer classes. It can be used with the software for social science classes, economics classes, etc.

The only change in Mrs. Maunu's classes was a student teacher from Northern State University. Mr. Tom Kulesa practice taught from Feb. 25-May 10 for typing, accounting I and accounting II, and in physical education with Mr. Joe Shetler.

## New room decor

The biggest change in English class was the addition of the Accelerated Reader program to the school. With the program students read books from a designated list. They then took a comprehensive test on a computer, and received points according to their test scores. Points are awarded on the basis of the book's length and difficulty. The students could purchase prizes with their points from the school store. The English teachers--Ms. Merry Duerre and Mrs. Sandy Sevig were in charge of the computer tests and supervised students during testing. "Can't touch that new program!" The school also purchased a speed reader to help students improve reading speed.

Students were asked to do plenty of reading in all grades, seventh through seniors. Novels were read, discussed, and tested in nearly all grades.

The sophomores spent more time on speech, parliamentary procedure, and group discussions. The seniors were able to take a trip to Siche Hollow to see historical sites, to reminisce, and to reflect.

Seniors also added new decor to the English room by recovering the dividers above the windows with paper endorsed with authors and periods of literature.

## Band movin' on

The FHS band was on the move this year from marching in the Gypsy Day parade and Homecoming parade to their trip to Valley Fair. The band spent many hours practicing marching in step and perfecting their marching song "Shaker Hymn". After all their preparation the 37 member band set out on a beautiful September day for the parade in Aberdeen.

The community and alumni also joined the band for a few performances during the year. One of which included the Alumni basketball game between Frederick and Hecla.

This year they also continued raising money for the trip by selling candy and raffling tickets for a beautiful cedar chest. With all their equipment and luggage the band loaded onto a chartered bus and headed to Minnesota to perform their music and also enjoy themselves at Valley Fair.

## Singin' on

From Christmas carols in the winter to the swinging songs in the spring this year's chorus was very busy.

The chorus began their year with the basic scale work and learning how to project their voices. After mastering the basics the chorus then moved onto Christmas music to be performed at the Christmas concert. The repertoire for the concert included "Sing Alleluia", "Frosty the Snow Man", and "Let Us Rejoice Today".

As the chorus ended their year by preparing for Region Music contest, spring concert, and graduation, they sang with the spirit of "Can't Touch Us".

UPPER: Tom Rexinger, Amy Nixon, Kirsten Barton, and Dan Nickelson were chosen to attend All-State Chorus in Huron. ABOVE: Triple-Trio members were Sara Sheldon, Jessica Rohwadder, Michele Rydberg, Kirsten Barton, Stephanie Paul, Amy Nixon, Beth Torrence, and Katie Schleder. Not pictured: Tracy Sheldon.

# One-act plays

Two plays?, How are we going to do two plays?, Are you out of your mind?

These are just a few of the comments Ms. Duerre heard when she decided to try ONE ACT plays for something new for this year's ALL School play. With a little help from student directors: Darcy Maunu and Kirsten Barton, Ms. Duerre selected "Inside/Out" and "Out of Control" as the two One Act plays to be performed this year. One of the plays would go on to region contest at Aberdeen.

After practicing for approximately six weeks, the night of the final performance came. The three judges for the evening performance were Bernice Rollo, Tanya Zinter, and MaryAnn Nelson. "Inside/Out" was chosen to move on to the Region Contest with leading Actor; Dan Nickelson and Actress; Amy Nixon.

Because it was the first year Frederick had participated in One Act play competition, the cast and crew didn't know what to expect; however, the judges gave them excellent comments and encouraging words. "You can't touch" that drama program.

# New Meet Attended

This year's Oral Interpretation team was faced with two meets instead of just one for the twelve member team, in preparation for the local contest and districts.

The team traveled to Milbank for a meet in which all members received an excellent rating and ribbons. Their next meet was in Aberdeen on the Northern State University campus. With so many schools participating no one ever thought that a little school like Frederick would ever advance anyone into the final rounds, but to the surprise of the team two people did advance. Becky Sumption and Amy Nixon advanced with their memorized duet. Following that meet was the local contest which would decide who would travel to Roslyn for the District contest.

Among other duties of the members in preparation for the contests were to read their pieces in front of their peers and during study halls and after school to iron out and perfect their piece's with Ms. Duerre. This year's team proved to be very young with it lead by only four Seniors.

Even though no one advanced on to Regions the season ended by giving the young team experience for future years.

# Co-op cheerleaders

Once again cheerleaders from Hecla and Frederick combined to support the Northstars. Cheerleaders from Hecla were Jennifer Slight and Gail Hier. Deserae Smith, Darcy Maunu, and Becky Sumption were from Frederick. They had the privilege to cheer in front of the new stadium.

During Homecoming a few new ideas were tried. Before the game the Frederick cheerleaders got out their make-up and started doing faces. No, they weren't their own!! They were the faces of youngsters who wanted to show their support for their team. The face painting was away to raise money for the helium. The helium was used to fill the balloons that were handed out to the crowd. The balloons were let go at the kick-off of the game. You "CAN'T TOUCH" that crowd!!!

# High in spirit

This year the basketball cheerleading squad may have been small, but it held high spirits!

The student body section was moved closer to the center of the gym. It seemed to involve the crowd a lot more.

To raise money, the "B" squad had a cake raffle at the last few home games. The money will be used for the upcoming years. You "Can't Touch" that sweet way of making money!!!!!!

# Northstar Changes

Although the Northstars ended the season with a 2-6 record almost everyone thought they could have done alot better, including coaches from the teams they lost too. A few bad breaks, it was decided, were all that kept the Northstars from a winning record and possibly a chance at the playoffs.

The team was somewhat broken up as Asst. Coach Patrick Mikkonen was called to go to Saudi Arabia. He left with a few words of wisdom for the team and encouragement from all the players.

The team also welcomed a new Asst. Coach Shane McIntosh. He was mainly involved with the team's defense and helped put in a new defensive play.

The Northstars also had two foreign exchange students. Mikko Vitanen was from Finland and Stefan Garblemann was from Germany.

Mr. Oster was constantly telling the team how talented they were and he was very optimistic about the next season. Although they will be losing a lot of players, so will all the other teams in the area and he thinks the Northstars will definitely be one of the better teams around. So, as a warning, don't even think about touching the Northstars next year.

# Spirit Still Stands

As it came to an end for the 1990 girls varsity basketball team, there were some disappointed faces for six senior girls. They knew it would be their last game of their high school career.

With the help of Cindy Shetler and some loyal fans, the Lady Vikings kept their pride throughout the season. The Frederick Lady Vikings finished their season with a 10-11 record, and finished fourth in districts by beating Roscoe and losing to Warner and Hecla.

Even though the Lady Vikes had to get used to a new coach, Joe Shetler was one who brought a lot of spirit and enthusiasm to the team. It was by chance that the Vikings did not meet their goal of 500, but in their minds, they were still chanting... "CANT'T TOUCH US!"

## Five Seniors

With five seniors on the team, the Frederick boys basketball team didn't have a season they would want to remember. This year the boys went 5-14, picking up those wins from Roscoe, Roslyn, Eureka, Bristol, and Leola.

In the first round of the districts the Vikings faced the Hosmer Tigers. The Vikings were down by ten points in the third quarter, they fell short by two points when the buzzer went off.

This year the boys recieved new uniforms, also the gym recieved a new scoreboard, now instead of stopping the game to fix it, games run much faster. "Can't touch that improvement."

# SPECIAL RECOGNITION

## German Guest

The Senior class had the honor of having a foreign exchange student this year. Stefan Garblemann was from Bad Salzdetfurth, Germany. His host family was Brian and Pam Catlett of Westport. When asked how he felt about being in the United States he said, "It feels just like home here at FHS."

We hope he felt at home here and will take back many good memories of all of us here at FHS. "Can't Touch" that experience.

## All-State Band

One hard working band student earned a very special honor this year. After many long hours of practice and dedication Tammy Clifford made All-State Band with her bass clarinet. She may be the first student from Frederick to ever make it into All-State Band.

When asked about her experience Tammy replied, "I would just like to thank everyone for their support and Miss Labesky for all of her help."

CONGRATULATIONS Tammy! "Can't Touch" that Determination!!!
